For non-majors biology courses, compelling and relatable stories engage students in learning biology. Colleen Belk and Virginia Borden Maier have helped students understand biology for more than twenty years in the classroom and over ten years with their popular text *Biology: Science for Life*. The thoroughly revised fifth edition engages students with new storylines that explore high-interest topics such as binge drinking, pseudoscience, and study drugs. The book and MasteringBiology resources also help students develop scientific skills using new working with data figure legend questions and addresses common misconceptions with sound bites. But is it? Discussions in each chapter. This edition also offers a wealth of new flipped classroom activities and other resources to help professors enliven their classes and to help students assess their understanding of biology outside of class. Also available with MasteringBiology, MasteringBiology is an online homework tutorial and assessment product proven to improve results by helping students quickly master concepts. Students benefit from self-paced tutorials that feature personalized wrong answer feedback and hints that emulate the office hour experience and help keep students on track with a wide range of interactive, engaging, and assignable activities. Students are encouraged to actively learn and retain tough course concepts. New assignment options for the fifth edition include interactive storyline activities, working with data questions, savvy reader, evaluating media activities, and more.

Colleen Belk and Virginia Borden Maier have helped students demystify biology for nearly twenty years in the classroom and nearly ten years with their book *Biology: Science for Life*. In the new fourth edition, they continue to use stories and current issues such as discussion of cancer to teach cell division to connect biology to students' lives. Learning outcomes are new to this edition and integrated within the book to help professors guide students' reading and to help students assess their understanding of biology. A new chapter 3, "Is it possible to supplement your way to better health?", nutrients and membrane transport offers an engaging storyline and focused coverage on micro and macro nutrients, antioxidants, passive and active transport, and exocytosis and endocytosis for instructors who cover animal structure and function and plant biology. An alternate edition of this book, *Biology: Science for Life with Physiology*, is also available. This package contains *Biology: Science for Life*, fourth edition.
