with seven of its justices appointed by republican presidents today s supreme court has significantly altered america s legal landscape since 1986 by tilting constitutional jurisprudence to the right that was the goal of presidents reagan and bush in filling court vacancies and has been felt in cases related to federalism economic rights and affirmative action however liberal issues such as abortion have moved only marginally to the right while rulings by the court on school prayer and gay rights have moved constitutional doctrine slightly to the left in this collection of original articles prominent constitutional scholars are joined by new voices from the cutting edge of academia to subject the rehnquist court to closer scrutiny and to show that its brand of conservatism is less extreme than many have supposed reflecting views across the political spectrum the contributors help readers understand the court dynamic its constrained conservatism and the forces that shape constitutional law in general as these authors show the overall pattern of decision making in the rehnquist era cannot be attributed to any single unified approach to constitutional analysis instead today s court can only be understood as the product of a complex interaction among individual justices each with an idiosyncratic view of the proper interpretation of the constitution and the role of the court in the american political system these provocative essays are designed to provide readers with insight into this interaction by focusing on each member of the bench from

the staunch conservatism of clarence thomas to the accommodationism of sandra day o connor to the liberal constitutionalism of david souter the essays analyze the unique approach of each justice to interpreting the constitution they also show that the current justices are the product of a nomination and confirmation process that has undergone a major transformation in recent decades one which favors experienced often unknown jurists over high profile public servants by concentrating attention on its members rehnquist justice allows us to better understand the supreme court as a whole and by assessing today's judiciary in light of a public philosophy that looks askance at government it shows us that the supreme court has truly become a mirror of its times

providing a foundation in obstetrics and paediatric nursing this text outlines the skills and techniques essential for clinical practice

in the late 1960s an amish community considered state education detrimental to its own values when the state claimed truancy and took jonas yoder to court a legal battle of landmark proportions followed this volume is a complete and compelling account of the yoder case

a comprehensive and path breaking study of what happens behind the scenes before presidents publicly announce to the senate and thus the nation their nominees for federal positions

for more than two centuries the u s supreme court has provided a battleground for nearly every controversial issue in our nation's history this veteran team of talented historians produces the most readable astute and up to date single volume history of this venerated institution

reviled as a fascist and zealot by libertarians and liberals but praised as a great patriot and devout man of god by many conservatives john ashcroft may have been the most powerful and polarizing attorney general in our nation's history looking past such oversimplified stereotypes nancy baker offers the first in depth study of ashcroft's controversial tenure as attorney general and as domestic commander in our campaign against global terrorism addressing new concerns about challenges to civil liberties in the wake of 9 11 baker provides a critical assessment of ashcroft's impact on national life within the context of an enormous expansion of presidential power baker depicts a man who even before 9 11 was in search of a mission and then found it in the war on terror she explores how ashcroft's counterterrorism actions eroded checks on executive power arguing that the attorney general used both the formal and informal powers of his office to expand executive and law enforcement authority and did so at the additional expense of criminal procedural rights privacy rights and government transparency baker tells how the war against terrorism the

unique legal policy role of the attorney general and ashcroft's presence in that office dramatically expanded the power and impact of executive power in domestic affairs she identifies ashcroft's rhetorical tactics that set his actions at odds with the public interest such as browbeating critics and marginalizing dissent and challenges the success claimed by ashcroft and his supporters in safeguarding america by documenting the justice department's lack of effectiveness in key prosecutions she also includes an enlightening analysis of the patriot act and its implications for both civil liberties and government power by documenting the ongoing importance of ashcroft's legacy a legacy now continued by alberto gonzalez baker shows how he dramatically changed the office and disrupted our constitutional system of divided and checked powers her close scrutiny of ashcroft's actions vividly highlights the role that an attorney general can play in shaping presidential power during national crises and provides a cautionary tale for anyone eager to protect our civil liberties

this first historical study of u s budget policy covering the last three decades places the budget at the center of modern american politics and adds an important dimension to the understanding of recent events

vols for 1871 76 1913 14 include an extra number the christmas bookseller separately paged and not included in the consecutive numbering of the regular series

offers coverage of wartime extra legal courts focusing on those periods when the constitution and civil liberties have been most severely tested by threats to national security fisher critiques tribunals called during the presidencies of washington madison jackson lincoln andrew johnson wilson franklin roosevelt and truman
