this classic text first published in 1893 was the first attempt to present a view of the relations of philosophy and economics through the whole of their history in tracing the history of this relationship the author begins by examining the work of the ancient philosophers and continues with the followers of the theory of natural law he then explores the utilitarian economics and the idealistic economics this title will be of interest to students of the history of economic thought

in print for the first time in fifty years the oxford edition of dicey faithfully reproduces the first edition of dicey s most influential work this volume also includes the main addenda for the other editions and the text of dicey s inaugural lecture

this book provides a complement to dicey s the law of the constitution these largely unpublished comparative constitutional lectures were written for different versions of a comparative constitutional book that dicey began but did not finish prior to his death in 1922 the lectures were a pioneering venture into comparative constitutionalism and reveal an approach to legal education broader than dicey is widely understood to have taken topics discussed include english french american and prussian constitutionalism the separation of powers representative government and federalism the volume begins with an editorial introduction examining the implications of these comparative lectures and dicey s early foray into comparative constitutionalism for his general constitutional thought and the kinds of response it has elicited

includes part 1a books and part 1b pamphlets serials and contributions to periodicals

borrowing its title from madeline harrison caviness s influential work on the modes of seeing articulated by the twelfth century cleric richard of saint victor this interdisciplinary collection brings together the work of thirty scholars from england france germany italy switzerland and the united states each author has contributed an original article that engages with ideas formulated in caviness s wide ranging scholarship the historiographic introduction discusses themes in caviness s publications and their importance for art historical and medieval studies today the book s thematic matrix groups together essays concerned with the material object documentary reconstruction post disciplinary approaches multiple readings gender and reception performativity text and image collecting and consumption and politics and ideology the contributors include curators art historians historians and literary scholars their subjects range from medieval stained glass to the nineteenth century gothic revival the sachsenspiegel and mel gibson s the passion of the christ many foreground issues of gender reception and textuality which have permeated caviness s scholarship some also present approaches to sites that have been the subject of important studies by caviness including canterbury chartres reims saint

denis sens and troyes the volume offers a broad range of methodological approaches to key topics in the study of medieval imagery and thus highlights the vitality of the field today

as european union eu member states seek to counteract base erosion and profit shifting beps practices while avoiding new obstacles to the eu s internal market such as double taxation the credit method also known as the foreign tax credit is one of the essential tools in this balancing act yet it is one that has given rise to various eu law challenges and questions this invaluable book the first in depth study of the eu law constraints on designing the credit method delineates the eu law boundaries within which the member states must operate when they implement this method of tax relief for the first time the court of justice of the european union cjeu cases that may affect directly or indirectly the credit method and its main components are systematically identified and analysed in order to extract the legal findings and principles that define the contours within which the member states can manoeuvre when considering eu compatible approaches to the credit method to this end among others this book offers an extensive study of the historical legal developments of the credit method an overview of the key design features of the credit method considering the optional variable components such as the credit limitation maximum creditable amount that tailor it to different legal and policy considerations an analysis of the legal constraints on the key features of the credit method flowing from cjeu case law on the fundamental freedoms considering the impact of landmark cases and concepts e g schumacker neutralization the eu law implications based on the type of credit method direct indirect imputation and the feature of the credit method e g credit limitation credit carryforward and examples to clearly and concisely illustrate the basic operation of the credit method and some of the main calculation and eu law issues the author s doctoral dissertation on which the book is based was awarded the wolfgang gassner science prize 2020 and the european doctoral tax thesis award 2020 as a timely comprehensive and practical study of the relationship between the credit method and eu law this book will be welcomed by lawyers and other professionals working with taxation matters as well as by tax policymakers and academics in the fields of international and european tax law
