this book will transform the way you think about design by showing how integral it is to our daily lives from the spoon we use to eat our breakfast cereal to the medical equipment used to save lives john heskett goes beyond style and taste to look at how different cultures and individuals personalise objects

there are many stories we can tell about the past and we are not perhaps as free as we might imagine in our choice of which stories to tell or where those stories end john arnold s very short introduction is a stimulating essay about how we study and understand history

the book begins by inviting us to think about various questions provoked by our investigation of history and explores the ways these questions have been answered in the past concepts such as causation interpretation and periodization are introduced by means of concrete examples of how historians work giving the reader a sense of the excitement of discovering not only the past but also ourselves about the series the very short introductions series from oxford university press contains hundreds of titles in almost every subject area these pocket sized books are the perfect way to get ahead in a new subject quickly our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

introduction 1 the information revolution 2 the language of information 3 mathematical information 4 semantic information 5 physical information 6 biological information 7 economic information 8 the ethics of information conclusion references

this is an introduction to the subject of academic theology its basic approach is interrogative raising key questions so as to lead into a range of selected topics such as knowledge community salvation god prayer and evil

for 30 years pulitzer prize winning journalist linda greenhouse chronicled the activities of the u s supreme court and its justices as a correspondent for the new york times in this very short introduction she draws on her deep knowledge of the court s history and of its written and unwritten rules to show readers how the supreme court really works greenhouse offers a fascinating institutional biography of a place and its people men and women who exercise great power but whose names and faces are unrecognized by many americans and whose work often appears cloaked in mystery how do cases get to the supreme court how do the justices go about deciding them what special role does the chief justice play what do the law clerks do how does the court relate to the other branches of government greenhouse answers these questions by depicting the justices as they confront deep constitutional issues or wrestle with the meaning of confusing federal statutes throughout the author examines many individual supreme court cases to illustrate points under discussion ranging from marbury v madison the seminal case which established judicial review to the recent district of columbia v heller 2008 which struck down the district of columbia s gun control statute and which was surprisingly the first time in its history that the court issued an authoritative interpretation of the second amendment to add perspective greenhouse also compares the court to foreign courts revealing interesting differences for instance no other country in the world has chosen to bestow life tenure on its judges the second edition of greenhouse s very short introduction tracks the changes in the court s makeup over the last eight years considers the landmark decisions of the obama and trump eras and reexamines the precarious fates of such precedents as roe v wade a superb overview packed with telling details this volume offers a matchless introduction to one of the pillars of american government

most of us recognize that organizations are everywhere you meet them on every street corner in the form of families and shops study in them work for them buy from them pay taxes to them but have you given much thought to where they came from what they are today and what they might become in the future how and why do they have so much influence over us and what influences them how do they contribute to and detract from the meaningfulness of lives and how might we improve them so they better serve our needs and desires this very short introductions addresses all of these questions and considers many more mary jo hatch introduces the concept of organizations by presenting definitions and ideas drawn from the a variety of subject areas including the physical sciences economics sociology psychology anthropology literature and the visual and performing arts drawing on examples from prehistory and everyday life from the animal kingdom as well as from business government and other formal organizations hatch provides a lively and thought provoking introduction to the process of organization about the series the very short introductions series from oxford university press contains hundreds of titles in almost every subject area these pocket sized books are the perfect way to get ahead in a new subject quickly our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

this book is intended to capture the interest of anyone who has been attracted to russian culture through the greats of russian literature either through the texts themselves or encountering them in the cinema or opera rather than a conventional chronology of russian literature the book will explore the place and importance of literature of all sorts in russian culture how and when did a russian national literature come into being what shaped its creation how have the russians regarded their literary language the book will use the figure of pushkin the russian shakespeare as a recurring example as his work influenced every russian writer who came after him whether poets or novelists it will look at such questions as why russian writers are venerated how they've been interpreted inside russia and beyond and the influences of such things as the folk tale tradition orthodox religion and the west about the series the very short introductions series from oxford university press contains hundreds of titles in almost every subject area these pocket sized books are the perfect way to get ahead in a new subject quickly our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable
