a companion volume to financial reporting and analysis by john dunn this text complements the existing book and offers practical coverage of key issues

study guide contains detailed chapter summaries a glossary of terms and demonstration problems and solutions

financial reporting provides an overview of a business profitability and financial condition in both short and long term a hot topic in the current market climate financial reporting and regulation explains the meaning behind the rules of

financial reporting as opposed to just the implementation of these rules it contains sufficient detail on the application of standards to enable the reader to appreciate the effects of the rules and the logic behind them is described in terms of the reasoning and history behind their development this will give readers a more informed insight of the regulations than many of the practical books currently on the market

corporate reporting is an essential and valuable communication tool between management and other stakeholders of the company there are a number of evolutions of corporate reporting from 1960 to at present iirc 2011 financial reporting plays an important role in the corporate reporting of an entity which includes financial transactions and events of an entity for a period financial reporting provides financial information on financial performance and position to economic decision makers today many companies are operating under a group therefore preparation and usage of consolidated financial statements are increased in the business environment as well as stakeholders of a company are from varying levels of educational background and different educational background therefore they expect not only financial reporting but also financial reporting analysis especially financial statement analysis through the financial statement analysis by an experienced and professional financial statement analyzer shareholders may have better understanding rather than going through the financial statements of an entity

financial reporting and analysis 1e by david guenther was written for instructors wanting to emphasize a more conceptual framework to their intermediate accounting course financial reporting and analysis examines financial reporting through the lens of economic theory giving students a way of understanding how all the rules relate to each other and to the overall goal of financial reporting this text also provides students with how financial information is used giving students a better

framework about how particular rules relate to the whole structure of financial reporting finally david guenther wrote this text to be rigorous in terms of topic coverage while at the same time avoiding much of the detail that seems to overwhelm students while reviewing you will find that we did not strip down or simplify a traditional intermediate accounting text but rather challenge students with concepts and ideas rather than details and rules
