the new revenue recognition standard is a joint bold move made by both the fasb and the iasb to give top lines of companies across industries a common denominator it is a ground breaking shift from the fair value measure of vendor specific objective evidence vsoe to measure revenue to one which takes into account what consideration the entity really expects to be entitled to receive from the contract with a customer collaborative arrangements would come under the scanner as the collaborator may not be acting as a customer moreover the terms client and customer would no longer be fungible asc 606 provides guidance that will apply to all entities including non public entities that previously did not have extensive guidance ifrs differs in this respect as ifrs for small and medium sized entities is available for entities that do not have public accountability the new standard broadens the definition of revenue to include newer

concepts like costs to obtain and fulfil a contract material rights and gain and loss from sale of non financial assets the revenue is recognised upon control transfer rather than on delivery transfer of risks and rewards and the standard introduces the concept of control transferred at a point in time and control transferred over time the standard requires management to increase exercise of judgment and estimate variable consideration after applying constraints the hierarchy for estimating stand alone selling prices has been done away with allocation of discounts and assessing collectability may undergo a change as the two would be analysed at the worm s eye view level of the performance obligation and not at the bird s eye view level of the contract early in 2017 we saw asu 2017 01 and asu 2017 05 narrowing the definition of business and defining an in substance non financial asset respectively the new definition of business disqualifies a set as a business when all or substantially all of the fair value of the gross assets acquired or disposed of is concentrated in a single identifiable asset or a group of similar identifiable assets think early stage life sciences companies real estate and shipping companies further the new definition of business requires an input and a substantive process that together significantly contribute to the ability to create output all of which should be acquired and evaluation of whether a market participant is able to replace the missing elements has been done away with further cost savings would not qualify as an output which would be aligned with outputs described in asc 606 the overall assessment of a business however still continues to be done from a market participant s angle and the buyer s and seller s intentions do not affect the analysis same as today except that the requirement of assessing whether a market participant would be able to replace missing elements has been done away with these two asus impact the new revenue recognition standard from the point of view of a sale of non financial assets to a customer where the interest in an entity does not fall under the new definition of business but within the definition of essentially a non financial asset the new revenue recognition standard affects more than just revenue and impacts the business processes and results in dual sox testing during the transition phase with sufficient training discussion and planning all managements will be able to do the heavy lifting

the new revenue recognition standard is a joint bold move initiated by both the fasb and the iasb to give top lines of companies across industries a common denominator it is a move from the fair value measure of measuring revenue to one which takes into account what consideration the entity really expects to be entitled to receive from a contract with a customer the new standard broadens the definition of revenue to include newer concepts like costs to obtain and fulfil a contract material rights and gain and loss from the sale of non financial assets there is specific guidance around contract combinations and contract modifications collaborative arrangements have come under the scanner as the collaborator may be acting as a customer the standard interacts with the new leases standard and lease and non lease components of a contract would need to be separated transfer of control to a customer is the axis of the new revenue recognition standard as control usually transfers before risks and rewards usually do entities may witness an acceleration in revenue recognition distinct goods services are now determined based on whether they are both individually distinct and are distinct within the context of the contract this may lead an increase or decrease in performance obligations leading to difference

in timing of revenue recognition provision for loss on contracts of the non onerous kind for construction contracts have been done away with increased judgement is needed for demarcating between a sale lease financing estimating variable consideration after applying constraints and in the capitalization and amortization of contract costs especially in case of a principal versus agent situation more disclosures are required this book brings you the impacts from an exotic mix of industries as varied as aerospace and defense engineering media and entertainment airlines pharmaceuticals health care early stage life sciences software construction and real estate retail and e commerce hospitality telecommunications shipping automotive outsourcing and investment companies and promises deep learning the new revenue recognition standard affects more than just revenue and impacts the business processes and results in dual sox testing during the transition phase with sufficient discussions and training all managements will be able to do the heavy lifting

the new revenue recognition standard is a joint bold move made by both the fasb and the iasb to give top lines of companies across industries a common denominator it is a move from the fair value measure of vendor specific objective evidence vsoc to measure revenue to one which takes into account what consideration the entity really expects to be entitled to receive from a contract with a customer the new standard broadens the definition of revenue to include newer concepts like contract costs incurred for transferring a good service material rights and gain and loss from the sale of non financial assets there is specific guidance around contract combinations and contract modifications transfer of control to a customer is the axis of the new revenue recognition standard as control usually transfers before risks and rewards usually do entities may witness an acceleration in revenue recognition collaborative arrangements have come under the scanner as the collaborator may be acting as a customer asu 2018 18 issued in november 2018 removes the bias that amidst a risk and benefits sharing atmosphere of a collaborative arrangement control of an output of an ordinary activity of one collaborator could be transferred to another collaborator for a consideration distinct goods services are now determined based on whether they are both individually distinct and are distinct within the context of the contract individually distinct goods services are now determined based on the characteristics of the goods or services themselves instead of the way in which the customer may use the goods or services vsoc rules are past tense and a good service may be distinct even if vsoc could not be established earlier this may lead an increase or decrease in performance obligations leading to difference in timing of revenue recognition increased judgement is needed for demarcating between a sale lease financing in estimating variable consideration after applying constraints and in the capitalization and amortization of contract costs especially in case of a principal versus agent situation more disclosures are required provision for loss on contracts may apply to entities as asc 606 amends asc 605 for those paragraphs instead of superseding them the position under ifrs is different as with the superseding of ias 11 construction contracts the non onerous provision for loss on construction contracts has been done away with asu 2017 01 and asu 2017 05 narrowing the definition of business and defining an in substance nonfinancial asset respectively impact the new revenue recognition standard from the point of view of a sale of non financial assets to a customer where the interest in an entity does not fall under the new definition of business but within the definition of essentially a non financial

asset ifrs 3 has also been amended for a new definition of business and that does bring us gaap and ifrs closer the new standard interacts with the new leases standard and there may be a pit stop at asc 606 before an entity transitions to the new leases standard this book brings you the impacts from an exotic mix of industries as varied as aerospace and defense engineering media and entertainment airlines pharmaceuticals health care early stage life sciences software construction and real estate retail and e commerce hospitality telecommunications shipping automotive outsourcing and investment companies and promises deep learning the new revenue recognition standard affects more than just revenue and impacts the business processes and results in dual sox testing during the transition phase with all the shuffling around the timing of payments being linked to the satisfaction of performance obligations managements should properly assess their normal operating cycles and working capital with sufficient discussions and training all managements will be able to do the heavy lifting

You can adjust the font size to suit your reading comfort, making it easier for those with visual impairments.

Text-to-Speech Capabilities

Text-to-speech features can convert written text into audio, providing an alternative way to enjoy books.

Tips for Maximizing Your Ebook Experience

To make the most out of your ebook reading experience, consider these tips.

Choosing the Right Device

Whether it's a tablet, an e-reader, or a smartphone, choose a device that offers a comfortable reading experience for you.

Organizing Your Ebook Library

Use tools and apps to organize your ebook collection, making it easy to find and access your favorite titles.

Syncing Across Devices

Many ebook platforms allow you to sync your library across multiple devices, so you can pick up right where you left off, no matter which device you're using.

Challenges and Limitations

Despite the benefits, free ebook sites come with challenges and limitations.

Quality and Availability of Titles

Not all books are available for free, and sometimes the quality of the digital copy can be poor.

Digital Rights Management (DRM)

DRM can restrict how you use the ebooks you download, limiting sharing and transferring between devices.

Internet Dependency

Accessing and downloading ebooks requires an internet connection, which can be a limitation in areas with poor connectivity.

Future of Free Ebook Sites

The future looks promising for free ebook sites as technology continues to advance.

Technological Advances

Improvements in technology will likely make accessing and reading ebooks even more seamless and enjoyable.

Expanding Access

Efforts to expand internet access globally will help more people benefit from free ebook sites.

Role in Education

As educational resources become more digitized, free ebook sites will play an increasingly vital role in learning.

Conclusion

In summary, free ebook sites offer an incredible opportunity to access a wide range of books without the financial burden. They are invaluable resources for readers of all ages and interests, providing educational materials, entertainment, and accessibility features. So why not explore these sites and discover the wealth of knowledge they offer?
