throughout the world as in the united states psychologists are increasingly being called upon to evaluate clients whose backgrounds differ from their own it has long been recognized that standard personality and psychopathology assessment instruments carry cultural biases and in recent years efforts to correct these biases have accelerated the handbook of cross cultural and multicultural personality assessment brings together researchers and practitioners from 12 countries with diverse ethnic and racial identities and training to present state of the art knowledge about how best to minimize cultural biases in the assessment of personality and psychopathology they consider research methodology the design and construction of standard objective and projective tests the use of measures of acculturation racial identity and culture specific tests the social etiquette of service delivery and the interpretation of test data for clinical diagnosis ranging widely through all the relevant issues they share a common collective vision of how culturally competent services should be delivered to clients the handbook offers the first comprehensive view of a consistent approach to cultural competence in assessment a necessary precursor of effective intervention it will become an indispensable reference for all those whose practice or research involves individuals with different ethnic and racial identities

in the bi personal field antonino ferro sets out his new conceptual system for analysis considering not only the inner world of the patient but the continued interaction of that world with the inner world of the analyst the book takes a fresh look at the main aspects of theory and technique in psychoanalysis in the light of kleinian developments it reflects the drastic changes due to the thinking of bion illustrated with numerous detailed clinical examples the author claims that the basic focus of the analytic relationship is the conscious and unconscious interpersonal intersubjective processes going on between the analyst and patient

treating dissociative and personality disorders draws on major theorists and the very latest research to help formulate and introduce the relational multi motivational therapeutic approach remota a new model for treating such patients within a clinical psychoanalytic setting

supported by her fellow contributors antonella ivaldi provides an overview of existing theories and evidence for their effectiveness in practice sets out her own theory in detail and provides rich clinical detail to demonstrate the advantages of the remota model as applied in a clinical setting the narratives in this book show how it is possible to integrate different contributions within a multidimensional aetiopathogenic treatment model which considers the mind as a manifestation of the relationship between body and world from a conceptual perspective according to which consciousness emerges and develops in the interpersonal dimension this book shows how it becomes possible to understand in the therapeutic space what stands in the way of sound personal functioning and how to create the conditions for improving this treating dissociative and personality disorders will be highly useful in addressing the particular clusters of symptoms presented by patients stimulating therapists of different backgrounds to explore the complexity of human nature on reading this book it will become clear that theories can truly become useful instruments if approached with a critical mind and with humbleness in order to venture into what we do not know and will never know completely the relationship with the other unique and irreplaceable treating dissociative and personality disorders provides an integrative and comparative new approach that will be indispensable for combining relational clinical knowing and motivational theories it will appeal to psychoanalysts and psychotherapists especially those in training clinicians of different backgrounds interested in comparative psychotherapy as well as social workers and graduate and postgraduate students

this book focuses on protection needs and new aspects of personality and data protection rights on the internet presenting a comprehensive review that discusses and compares international european and national brazilian german pakistani perspectives it deals with overarching questions such as whether universal minimum standards of privacy protection can be developed or how regional data protection rights can be safeguarded and enforced extraterritorially given the conditions of the internet furthermore the book addresses new challenges and novel rights e g data retention and protection against mass surveillance the right to be forgotten rights to anonymity legal issues of the digital estate or rights relating to algorithmic decision making furthermore the book explores how well

known paradigms such as liability for personality rights violations or damages have to be adapted in view of the significant role of intermediaries

this book proposes an integrated model of treatment for personality disorders pds that goes beyond outdated categorical diagnoses aiming to treat the general factors underlying the pathology of personality the authors emphasize the development of metacognitive functions and the integration of procedures and techniques of different psychotherapies the book addresses the treatment of complex cases that present with multiform psychopathological features outlining clinical interventions that focus on structures of personal meaning metacognition and interpersonal processes in addition this book provides an overview of pre treatment phase procedures such as assessment interviews explains the metacognitive interpersonal therapy mit approach and summarizes mit clinical guidelines outlines pharmacological treatment for patients with pds includes checklists and other useful resources for therapists evaluating their adherence to the treatment method complex cases of personality disorders metacognitive and interpersonal therapy is both an insightful reexamining of the theoretical underpinnings of personality disorder treatment and a practical resource for clinicians

this book describes how the violent dimension of intergroup relations can be better understood if the interplay between psychological and social developmental factors is taken into account ten unique innovative and original chapters by international scholars of social and developmental psychology address the way how social reality is constructed as a hierarchical order and how social norms beliefs and cognitive behavioral patterns are learned shared and repeatedly processed on how to uphold or challenge this social order the volume covers diverse issues such as the effects or lack thereof of power and violent video games on people s thinking and behavior the acquisition of social norms and attitudes during childhood minorities identity management strategies the role of mothers educational beliefs and the impact of ideologies this volume is inspired by the oeuvre of maria benedicta monteiro emphasizing the psychogenetic and sociogenic diacronies that are too often neglected by the predominantly synchronic paradigm of social psychology it is therefore an

indispensable reading for researchers and advanced students in social community and developmental psychology for scientifically interested practitioners working with families school contexts or intergroup conflict and for everyone interested in the expanding field of the social developmental approaches to attitudes and behaviour
