a comprehensive and up to date textbook that brings applied linguistics alive while preparing students for the field with hands on practice

this book provides a wide ranging treatment of the major issues in applied linguistics

this text is a highly accessible and authoritative approach to the theory and practice of teaching writing to students of english

this book demonstrates how metaphor needs to be researched using multiple methods of investigation

applies applied linguistic theories to the development of materials for language learning to add new depth to the field

criterion referenced language testing looks at the practical applications of this new area of language testing

the second international congress of applied linguistics held in cambridge 8 12 september 1969 provided papers from all over the world to different subjects within the linguistic family these are linguistics applied to literary texts computer analysis of texts psychology of first and second language learning speech research technology of language learning language teaching and test material and methodology lexicography theory of translation contrastive linguistics and sociolinguistics this book is a fascinating and useful work of reference for all concerned with applied linguistics

mapping applied linguistics a guide for students and practitioners provides an innovative and wide ranging introduction to the full scope of applied linguistics incorporating both socio cultural and cognitive perspectives the book maps the diverse and constantly expanding range of theories methods and issues faced by students and practitioners alike practically oriented and ideally suited to students new to the subject area the book provides in depth coverage of language teaching and education literacy and language disorders language variation and world englishes language policy and planning lexicography and forensic linguistics multilingualism and translation including real data and international examples the book features further reading and exercises in each chapter fieldwork suggestions and a full glossary of key terms an interactive companion website also provides a wealth of additional resources this book will be essential reading for students studying applied linguistics tesol general linguistics and education at the advanced undergraduate or master s degree level it is also the ideal gateway for practitioners to better understand the wider scope of their work

the field of applied linguistics covers a diverse range of research and practice and has developed somewhat differently in various parts of the world due to variations in local socio cultural conditions needs and issues however this local diversity does not reflect a field that is incoherent but rather one which has a broad shared international agenda which is invigorated by the diversity brought to the field by local perspectives the papers in this volume represent some of the major global directions that research in applied linguistics is taking and shed light on how language is used to affect practice the aim of this volume is to explore some of the key methods and issues which are guiding applied linguistics into the future through an examination of these issues in local contexts thereby providing a basis for understanding the global directions the field is taking these directions follow two historically defined paths those related to educational studies and language teaching and those related to social issues involving language in the volume half the papers focus on the former examining issues of language teaching language teacher education and second language acquisition while the other half examine social issues related to language use bilingualism and multilingualism and language policy and planning the collection of papers presented in this book illustrates how these traditional themes are influenced by the rising forces of globalisation and the use of technology thus exemplifying both the new and old ways in which the study of language is realised

this volume focuses on practice from a theoretical perspective and includes implications for the classroom

second language acquisition sla and language testing It research have largely been viewed as distinct areas of inquiry in applied linguistics this book provides a fresh look at areas of common interest to both sla and It research and ways in which research in these two areas of applied linguistics can be fruitfully integrated

no mere history of applied linguistics this volume presents a framework for interpreting the development of applied linguistics as a discipline it offers a systematic account of how applied linguistics has developed articulating the philosophical premises that have informed both its emergence and its subsequent growth it asks questions that are seldom asked where does the discipline derive from where is it heading what directions has it already taken which direction should it embrace in future what is the relative worth of all of the variation in design and methods that have been developed by applied linguists in defining applied linguistics as a discipline of design it takes us beyond the diffuse and sometimes contradictory conventional definitions of the field the framework of design principles it proposes not only helps to explain the historical development of applied linguistics but also provides a potential justification for solutions to language problems it presents us with nothing less than an emerging theory of applied linguistics

the cambridge handbook of english corpus linguistics checl surveys the breadth of corpus based linguistic research on english including chapters on collocations phraseology grammatical variation historical change and the description of registers and dialects the most innovative aspects of the checl are its emphasis on critical discussion its explicit evaluation of the state of the art in each sub discipline and the inclusion of empirical case studies while each chapter includes a broad survey of previous research the primary focus is on a detailed description of the most important corpus based studies in this area with discussion of what those studies found and why they are important each chapter also includes a critical discussion of the corpus based methods employed for research in this area as well as an explicit summary of new findings and discoveries
