can science psychology and biology explain miracles this three volume set attempts to answer that question presenting the latest as well as classic thinking and research regarding miracles from fields that include psychology psychiatry theology biology and history we have all heard of what seem miraculous events which have surfaced across history they range from stigmata and bleeding icons to deadly tumors that disappear and healers who succeed just by laying hands on the afflicted from people who can predict unexpected events to so called mediums and those who can allegedly see and speak with the dead these books led by an eminent scholar who serves as series editor for the praeger series psychology religion and spirituality examine miracles of body mind and spirit presenting the most recent research and writing on these uncommon events aiming to bring hard science to some of the most persistent and peculiar phenomena associated with the human race can science psychology and biology explain miracles this three volume set attempts to answer that question presenting the latest as well as classic thinking and research regarding miracles from fields that include psychology psychiatry theology biology and history from news of a crippled

woman who left her wheelchair and walked after an evangelist prayed over her to stories of people who died on the operating table only to be revived to tell of bright lights and the pathway to the afterlife we've all heard of what seem miraculous events they have surfaced across history they range from stigmata and bleeding icons to deadly tumors that disappear and healers who succeed just by laying hands on the afflicted from people who can predict unexpected events to so-called mediums and those who can allegedly see and speak with the dead some miracles are intricately tied to religious beliefs but there are millions of people who ascribe to no particular religion yet still believe that things happen that defy all laws of nature and thus defy scientific explanation in these books eminent scholar J. Harold Ellens and his team of expert contributors examine miracles of body, mind, and spirit presenting the most recent research and writing on these uncommon events as they aim to bring hard science to some of the most persistent and peculiar phenomena associated with the human race

why are we willing to die for our countries how can ideology persuade someone to blow themselves up when we go to war morality religion and ideology often take the blame but Mike Martin boldly argues that the opposite is true rather than driving violence these things help to reduce it while we resort to ideas and values to justify or interpret warfare something else is really propelling us towards conflict our subconscious desires shaped by millions of years of evolution

longlisted for the Financial Times and Schroders Business Book of the Year award a novel economic interpretation of how religions have become so powerful in the modern world religion in the twenty-first century is alive and well across the world despite its apparent decline in North America and parts of Europe vigorous competition between and within religious movements has led to their accumulating great power and wealth religions in many traditions have honed their competitive strategies over thousands of years today they are big business like businesses they must recruit raise funds disburse budgets manage facilities organize transportation motivate employees and get their message out in the divine economy economist Paul Seabright argues that religious movements are a special kind of business they are platforms bringing together communities of members who seek many different things from one another spiritual fulfillment friendship and marriage networks even business opportunities their function as platforms he contends is what has allowed religions to consolidate and wield power this power can be used for good especially when religious movements provide their members with insurance against the shocks of modern life and a sense of worth in their communities it can also be used for harm political leaders often instrumentalize religious movements for authoritarian ends and religious leaders can exploit the trust of members to inflict sexual emotional financial or physical abuse or to provoke violence against outsiders writing in a nonpartisan spirit Seabright uses insights from economics to show how religion and secular society can work together in a world where some people feel no need for religion but many continue to respond with enthusiasm to its call

interest in theories of religion has never been greater scholars debate single theoretical approaches in different scholarly journals while the new atheists such as Richard Dawkins and Daniel Dennett criticize the whole idea of religion for everyone eager to understand the current state of the field contemporary theories of religion surveys the neglected landscape in its totality Michael Stausberg brings together leading scholars of the field to review and discuss seventeen contemporary theories of religion as well as scholars of religion it features anthropologists archaeologists classicists evolutionary biologists philosophers and sociologists each chapter provides students with background information on the theoretician a presentation of the theory's basic principles an analysis of basic assumptions and a review of previous critiques concluding with a section entitled back and forth Stausberg compares the different theories and points to further avenues of discussion for the future

Whitley one of the world's leading experts on cave paintings rewrites the understanding of shamanism and its connection with artistic creativity myth and religion by interweaving

archaeological evidence with the latest findings of cutting edge neuroscience

during his lifetime internationally celebrated new zealand thinker and author lloyd geering has published numerous thought provoking books on the nature of religious belief and has also been tried for heresy in 1967 this book critiques geering s now well known religious atheism in terms of its philosophical underpinnings the authors look at the justifications of geeringism in particular his rejection of the cognitive content and other aspects of christian belief and illuminate not only the specifics of his approach to the age old question how are we to live but also the wider set of ideas from which such issues have arisen

addresses the interrelationship of psychology and religion this work examines the areas of health care longevity and terrorism and their links to psychology and religiousness

a compilation of primarily original essays that deal with israel from a critical position

aims to provide access to articles selected from the best of the public press organizational features of this work include an annotated listing of selected world wide sites and table of contents a topic guide a general introduction brief overviews for each section an index and an instructor s resource guide with testing materials

freedom of the press is more than a slogan journalists use when they want to report a juicy scandal a free press may put butter on your bread or even help you get the piece of bread nice guys finish last is a saying that formerly had some validity but it is becoming less true all the time nice guys are now more likely to come out on top terrorism will be controlled only when more people in all parts of the world are involved in the search for peace and a better life new opportunities for them to become involved are now opening up these ideas emerge from a sociological analysis of how we get the pleasures and satisfactions nearly everyone in the modern world wants increasingly such expectations can be satisfied only if we cooperate with other people many of whom are very different from ourselves the complexity of modern societies also requires that more and more people assume specialized roles and that these specialists work together regardless of national ethnic religious or other differences the future belongs to those who are best at cooperation and conflict resolution

this book examines longstanding debates in the anthropology of religion concerning the connections between ritual and meaning belief politics emotion development and gender but it examines these old topics from a radically new perspective that of the cognitive science of religion as such the volume identifies potential solutions to established problems but it also sets out a program for future research in the field the volume includes a substantial introduction from harvey whitehouse and james laidlaw who highlight the connections between key issues in the history of religious anthropology and the latest findings of scientific psychology this volume they argue presents us with potential solutions to old problems but also with a series of new and exciting challenges this book is part of the ritual studies monograph series edited by pamela j stewart and andrew strathern department of anthropology university of pittsburgh the introduction and endpapers by the editors which detail these positions are excellent the papers in between which explore the relation of ep to the thought of malinowski durkheim and other seminal anthropological scholars of religion are likewise first rate highly recommended c s peebles indiana university bloomington choice magazine
