this book looks at human security in china s foreign relations it discusses the concept and theory of human security and their implications for china the book goes on to analyse environmental security issues including climate change and water resources as well as looking at issues from an energy consumption perspective significant human security issues are then focussed on including food safety pandemic disease control migration and the human rights implications of china s overseas investment

this book is designed to introduce law students legal actors and human rights activists particularly participants in human rights dialogues with china to the process and reality of a newly confident china s participation in the international human rights system albeit with inherent challenges from an international and comparative perspective one of the key findings of the author s research is that progress towards human rights depends more on judges than on legislators chinese legislators have enacted a series of reforms in order to better protect human rights unfortunately these reforms have not led to greater adherence to china s international human rights obligations in practice the reforms failed because they have generally been misunderstood by chinese judges who often have a limited understanding of international human rights norms specifically this book will examine how judicial misunderstandings have blocked reforms in one specific area the use of severe punishments based on international human rights theory and case studies and data analyses this examination has several purposes the first is to suggest that china ratify the iccpr as the next step for its substantive progress in human rights and as a good preparation for its re applying to be a member of the un human rights council in the future the second is to explain how judges could be better educated in international human rights norms so as to greatly reduce the use of severe punishments and better comply with china s human rights obligations the third is to demonstrate how the international community could better engage with china in a manner that is more conducive to human rights improvements the author s ultimate goal is to enhance dialogue on human rights in china between judges and the chinese government between chinese judges and their foreign counterparts and between china s government and the international community another significant aim of this book is to clarify the controversial question of what obligations china should undertake before its ratification of the iccpr and to re examine trends in its developing human rights policy after standing down from the council in late 2012 the tortuous

progress of china s criminal law and criminal justice reforms has confirmed that chinese judges need further instruction on how to apply severe punishments in a manner consistent with international standards judges should be encouraged to exercise more discretion when sentencing so that penalties reflect the intent of relevant domestic laws as well as the international human rights standards enumerated in the iccpr in order to better educate and train judges this book contains introductory chapters that examine the severe punishments currently available to chinese judges from an international human rights perspective to illustrate how chinese justice currently falls short of international norms this paper also examines several cases that are considered to be indicative of china s progress towards greater respect for human rights and the rule of law these cases demonstrate that china still has a long way to go to achieve its goals at least before abolishing the death penalty forced labor and torture

since the tiananmen square incident in 1989 there has been increasing international pressure on china to improve its approach to human rights whilst at the same time the chinese government has itself realised that it needs to improve its approach and has indeed done much to implement improvements this book explores systematically the international engagement in human rights in china and assesses the impact of such foreign involvement it looks at particular areas including criminal justice labour and religious freedom considers the processes by which international pressure is brought to bear and the processes by which improvements are implemented in china and concludes that whilst china s human rights record has improved more than many people realise further improvements are still needed

this volume illuminates the relationship of china s radical past to its reformist present as china makes a way forward through very differently conceived and contested visions of the future in the context of early twenty first century problems and the failures of global capitalism is china s history of revolutionary socialism an aberration that is soon to be forgotten or can it serve as a resource for creating a more fully human and radically democratic china with implications for all of us ranging from the early years of china s revolutionary twentieth century to the present the essays collected here look at the past and present of china with a view toward better understanding the ideas ideals and people who have dared to imagine radical transformation of their worlds and to assess the conceptual political and social limitations of these visions and their implementations the volume s chapters focus on these issues from a range of vantage points representing a spectrum of current scholarship the first half of the book brings new insights to understanding how early twentieth century intellectuals interpreted ideas that allowed them to break with china s past and to envision new paths to a modern future it treats of chen duxiu a founder of the communist party mao zedong and mao in relation to the non communist liang shuming and with the dalai lama with continuing threads of nation and nationalities of peasants utopias and dystopias linking the chapters the book s second half looks broadly at the consequences of the implementations of radical ideas at the same time critiquing our accepted frameworks of analysis moving up to the present the book

investigates the effects of the reforms since the 1980s on long term environmental degradation and on the emergence of a capitalist rural economy it gives an unsparing view into contemporary rural china through independent films the book concludes with an analysis of the unshakable persistence of the shibboleth the rise of china in popul
