contains 13 studies drawn from two separate conferences each focusing on a different political or economic issue concerning a land locked nation of africa or asia the present contributions first appeared in a special issue of geopolitics and international boundaries 2 1 summer 1997 published by frank cass paper edition unseen 19 50 distributed by isbs annotation copyrighted by book news inc portland or

theories of international relations assumed to be universally applicable have failed to explain the creation of states in africa there the interaction of power and space is dramatically different from what occurred in europe in states and power in africa jeffrey herbst places the african state building process in a truly comparative perspective herbst s bold contention that the conditions now facing african state builders existed long before european penetration of the continent is sure to provoke controversy for it runs counter to the prevailing assumption that colonialism changed everything this revised edition includes a new preface in which the author links the enormous changes that have taken place in africa over the past fifteen years to long term state consolidation the final chapter on policy prescriptions has also been revised to reflect the evolution of african and international responses to state failure

abstract

englebert argues that differences in economic performance both within africa and across the developing world can be linked to differences in historical state legitimacy
