in making problems creating solutions jill ostrow rethinks the teaching of mathematics and shows teachers how to build challenging learning environments in elementary classrooms she introduces the notion of workshop learning in mathematics and demonstrates ways in which teachers can readily integrate math into all curricular areas traditional mathematics instruction consists of statements of rules followed by examples which define those rules the tell show and do model under this model math concepts are fed to students in a sequence determined by the teacher rather than the intellectual readiness of the child alternatively jill takes a process approach to mathematics acquisition that is based upon understanding challenge independence confidence and choice such an approach makes it easier for kids to apply their knowledge to new problems and to other areas of their lives making problems creating solutions gives educators a chance to see the nctm standards as well as many other mathematics curricula put into authentic practice provides examples of solutions and thinking strategies of students ages 6 to 12 describes a new and innovative approach to teaching calendar contains a large section on assessment features an extensive appendix of problems with each problem annotated to show which standard is being addressed this book shows teachers how to encourage kids to create problem solving strategies and then to share and discuss those strategies

with peers it is an appropriate text for both preservice and inservice programs as well as math inservice workshops in making problems creating solutions jill places meaning and purpose at the heart of her mathematics program and in turn gives teachers ideas and techniques that will inspire critical thinking in young mathematicians

this is a unique information source and timesaver packed with 155 ready to use lists content and materials covering the entire k 6 math curriculum all of the lists patterns and worksheets are printed in a big spiral bound format ready to be photocopied as many times as needed and organized into 14 convenient sections including standards and methodologies beginning mathematics geometry numeration counting basic operations number theory fractions decimals measurement probability statistics pre algebra problem solving technology and ten reproducible patterns

this book has more than 3100 multiplication facts for daily practice by students each page has 2 different sets consisting of 18 problems each it is recommended for students to attempt 1 set daily for consistent practice book starts and ends with times table charts for easy reference followed by some quick multiplication facts once students start gaining confidence in individual facts they can attempt mixed facts book can be used to track practice time for each set date and time can be recorded at top of each page answer to each problem is given at the end of the book knowing multiplication facts is helpful not only in academics we frequently use multiplication in our daily lives too just like learning to walk before you can run learning multiplication and familiarizing yourself with numbers are building blocks for other math topics taught in school such as division long multiplication fractions and algebra mastering the basic math facts develops automaticity in kids automaticity is the ability to do things without occupying the mind with the low level details that are required this is usually the result of consistent learning repetition and practice for instance an experienced cyclist does not have to concentrate on turning the pedals balancing and holding on to the handlebars instead those processes are automatic and the cyclist can concentrate on watching the road the traffic and other surroundings until students have developed sufficient sensory cognitive tools supporting access to symbolic memory they will not be able to image store or retrieve all of the basic facts with automaticity therefore students need a comprehensive developmental and multi sensory structured system for developing automaticity with the facts
