this text offers a wealth of practical and proven strategies for successfully including students with disabilities in general education classrooms the text provides targeted

strategies for the subject and skill areas as well as special needs of individual students with a strong focus on instructional strategies applied to specific student need areas an overall theme of effective differentiated instruction is infused throughout the text relating to those practices that are most closely aligned with academic success the text is unique in its three part coverage of 1 the fundamentals of teaching students with special needs 2 effective general teaching practices and 3 inclusive practices in specific subject areas with a strong focus on instructional strategies and how they are applied to specific student need areas the text goes further by featuring more specific strategies than any other text and extensive information about the most effective strategies available and when and how to use them this strong focus instructs pre service teachers and other education personnel on how they can implement in the classroom specific strategies to address a very wide range of grade levels skill levels academic content areas and extensive and very specific information on strategies teachers can use in the areas of most concern to them e g behavior management handling student confrontations promoting literacy memory for school content motivation to learn maintaining student attention adapting assessment and improving test scores and specific strategies for adapting specific lessons in math science social studies and career and technical education specifically written for pre service or in service special education teachers who will work with general education teachers in k 12 classrooms the text is also relevant for school psychologists counselors support staff and other school personnel interested in helping all students succeed in the classroom this student value edition is a three hole punched loose leaf version of the textbook and provides students the opportunity to personalize their book by incorporating their own notes and taking only the portion of the book they need to class all at a fraction of the bound book price

enduring issues in special education is aimed at any course in the undergraduate or graduate special education curriculum that is wholly or partly devoted to a critical examination of current issues in special education the book organizes 28 chapters into seven sections using familiar structuring principles what who where how when why and whither each section begins with an introduction that provides historical legal and theoretical background information and organizing commentary for the chapters that follow the book s objective in addition to informing readers about the issues is to develop critical thinking skills in the context of special education key features include the following dialectic format each of the 28 chapters presents compelling reasons for addressing the issue at hand and specific ways to do so because each issue is written from different perspectives and focuses on a variety of aspects readers are encouraged to weigh the arguments seek additional information and come up with synthesized positions

of their own organizing framework the book's seven sections have been arranged according to a scheme that is the essence of most investigative reporting and provides a coherent easy to understand framework for readers expertise all chapters are written by leading scholars who are highly regarded experts in their fields and conclude with suggested readings and discussion questions for additional study

written by highly respective researchers in the field the inclusive classroom is a book that prepares readers to feel secure in their ability to instruct k 12 learners with disabilities and other special learning needs general instruction and classroom management skills prevail throughout the book enabling readers to construct instructional strategies through which they will find success comprehensive in scope and coverage users will be interested in reading about the following topics inclusive teaching collaboration students with higher incidence disabilities students with lower level disabilities students with other special learning needs effective instruction for all students improving classroom behavior and social skills motivation and affect improving attention and memory teaching study skills content area teaching including art music physical education foreign languages vocational education and transitions obviously a book for educators and future educators this resource can be a valuable read for parents of children with special needs as well as those in the educational arena that plan curricula for those children

helps make the writing process clearer and helps students organize their thoughts about the writing task

this text deals with issues that affect all education majors each chapter is written by an expert in his/her specific field of inclusion or special education the range and coverage of the text is very broad including issues such as funding assessment and reasons behind inclusion there are specific mainstreaming strategies for moderately to severely disabled students of all ages

for the k 12 special education methods course for future teachers of students with learning problems knowing that no one approach to teaching is right for all children all of the time this comprehensive yet accessible case based text presents current best practices with the aim of helping prospective teachers learn to tailor instruction to the diverse

needs and abilities of students with learning problems the authors explore the entire inclusion movement and the theories of teaching and learning that inform it discuss the nature of students with learning problems and the characteristics of effective teachers and describe a broad spectrum of proven instructional strategies for all curriculum areas finally they examine the unique challenges and opportunities that transitions create for students with learning problems

two important issues are at the heart of intense debate and a number of reforms concerning today s schools one of these is pedagogy the art of science and teaching a second issue regards the goals of education although there is widespread agreement that education involves far more than rote learning debate continues regarding what the goals of education should be and how they should be pursued this special issue focuses on the implications of constructivism for students with special needs including those with learning disabilities Id particularly within the current movement toward inclusion contributing authors were asked to consider applied classroom concerns a central issue identified throughout was the tension between maintaining authentic meaningful context for learning emphasized in constructivist principles and providing the level of explicit instruction needed for all students to gain important skills and strategies contributors provide both exemplars of integrative instruction and careful consideration of multiple issues faced by educators and students alike as they move toward implementation of constructivist principles in diverse classrooms

eeveiws the logic and importance of using strategy instruction
