what do we mean by art as a category of objects the concept belongs to a western cultural tradition originally european and now increasingly global but how useful is it for understanding other traditions to understand art as a universal human value we need to look at how the concept was constructed in

order to reconstruct it through an understanding of the wider world western art values have a pervasive influence upon non western cultures and upon western attitudes to them this innovative yet accessible new text explores the ways theories of art developed as western knowledge of the world expanded through exploration and trade conquest colonisation and research into other cultures present and past it considers the issues arising from the historical relationships which brought diverse artistic traditions together under the influence of western art values looking at how art has been used by colonisers and colonised in the causes of collecting and commerce cultural hegemony and autonomous identities world art questions conventional western assumptions of art from an anthropological perspective which allows comparison between cultures it treats art as a property of artefacts rather than a category of objects reclaiming the idea of world art from the art world this book is essential reading for all students on anthropology of art courses as well as students of museum studies and art history based on a wide range of case studies and supported by learning features such as annotated further reading and chapter opening summaries

very few books try to capture a subject as vast as the world of art and even fewer succeed but robert payne has succeeded and in this book he portrays in vivid fresh nontechnical language the entire history and achievement of the world's artists from the original caveman painters who decorated their homes with animal paintings to contemporary artists who fill their canvases with often bewildering abstract forms payne approaches each artistic period and each great artist with sympathetic understanding and an appreciation of the values and aesthetic ideals of the time through carefully chosen illustrations woven into his text moreover he shows exactly what makes a work of art great world of art casts its view over all the types of art not only the western tradition but the contributions of egypt persia india china japan and other important cultures as well yet the book is more than a mere survey for robert payne's special brilliance lies in showing the common spirit and aspiration that have united all the world's great artists the main value of this book is spontaneity there is nothing pedantic about it although it ranges all over the world art from its earliest beginnings to the present the author keeps the flow of his account moving at a rapid pace its importance is to offer a fast paced critical reassessment of the history of art in terms of today's outlook mr payne relies chiefly on a beautiful use of language which enables him to telescope the essence of a culture or period into a few well turned paragraphs he gives the reader a dynamic reevaluation based on critical judgments and first hand observations rather than a rehash of conventional

academic views rather than the pedantic accuracy of an encyclopedia approach mr payne s book possesses the rare quality of persuasiveness and enthusiasm and it will send the reader off to go and look henry a la farge senior editor art news
