wide was only 130 sites strong six years later it boasted more than seven million sites despite this explosive growth of the internet and computer technology little is known about the social implications of computer mediated communications in this work the author uses social science theory to evaluate the social transformations taking place today she asks whether human beings use the internet to change basic social institutions and if so whether these changes are a matter of degree only or represent an overthrow of previous modes of organizing the work examines the rise of the internet as the logical extension of the industrial revolution and urbanization consistent with the basic tenets of modernity and offers a new conceptual framework through which to understand the internet

this book reinterprets the notion of the commons by tracing how it has been mobilised in the aftermath of economic crisis in a period of widespread activism against the privatisation of resources and services implemented through austerity policies the reconceptualisation of property as a non absolute and non individualistic institution has attracted a great deal of attention drawing on the case of the italian south and in the wake of economic crisis this book offers a critical analysis of the struggle for the commons more specifically as it details how discourses legal tools and policies based on disciplinary ideas of the commons are deployed in the neoliberal restructuring of societies the book considers how conflicting ideas of the commons express different and often clashing visions of urban space in this regard moreover it shows how law plays a central albeit ambivalent role in the struggle for the commons as both a governmental technique to regulate urban space and its residents and as an emancipatory tactic to advance non proprietary visions of ownership this book will be of interest to scholars in socio legal studies property law legal sociology and politics as well as others with more general interests in the critical potential of contemporary social movements
