an issue driven introduction to industrial organization thoroughly updated and revised the study of industrial organization is the analysis of the way firms compete with one another has become a key component of economics and of such related disciplines as finance strategy and marketing this book provides an issue driven introduction to industrial organization although formal in its approach it is written in a way that requires only basic mathematical training it includes a vast array of examples from both within and outside the united states this second edition has been thoroughly updated and revised in addition to updated examples this edition presents a more systematic treatment of public policy implications it features added advanced sections with analytical treatment of ideas previously

presented verbally and exercises which allow for a deeper and more formal understanding of each topic the new edition also includes an introduction to such empirical methods as demand estimation and equilibrium identification supplemental material is available online

in readings in industrial organization luis cabral has assembled and placed into context the most important contributions to the literature of industrial organizations io since the 1980s

it is now widely recognised that a cold war perspective falls short in unfolding the complex geographies of connections and the multipolarity of actions and transactions that were shaped through the movement of individuals and ideas from africa to the east and from the east to africa in the decades in which african countries moved to independence adopting an interdisciplinary transregional perspective this volume casts new light on aspects of the role of eastern europe and the soviet union in the decolonisation of africa taking further themes explored in a collection of essays published by the editors in 2019 the twelve case studies by authors from south africa czech republic portugal russia hungary italy canada serbia and germany draw on new sources to explore the history of the ties that existed between african liberation movements and the socialist bloc some of which continue to influence relationships today chapters contribute to three relevant main themes that resonate in a number of scholarly fields of inquiry ranging from global studies transregional studies cold war studies global history to african studies eastern european russian and slavic studies reconsiderations resources and reverberations drawing upon newly opened archives and combining transregional perspectives with sources in different languages chapters explicitly point out the shortcomings of past research and debates in the respective field they highlight new avenues which have been developing and which need to be further developed reconsiderations selected case studies address the resources of those being active and involved in decolonisation processes be it in east north west and south they reveal which resources both material and intellectual are the actors drawing upon on the other hand from which resources are individuals on one side or the other reciprocally or intermittently intentionally kept away resources finally the third theme puts an emphasis on the historicity of the processes depicted studies point to the gaps and dead ends of international support the paths that peter out but also to repercussions and reverberations up until today reverberations taken these three themes together the individual chapters contribute to the overall question of which general historical narratives about the second half of the 20th century are changing based on these new research findings
