between the ages of one and three children go through a distinct stage that every parent knows well toddlerhood primarily concerned with themselves and

their immediate worlds toddlers present special needs to their caregivers this book outlines a responsive nondirective approach to help professionals with this unique developmental stage the authors approach is child centered focusing on the need to let children be themselves in as natural and individual a way as possible rather than stressing preschool academic achievement responsive caregiving adjusting to the specific needs of the children requires as much knowledge of psychology sociology education and medicine as directive caregiving but in addition the responsive caregiver needs a rarer higher skill an ability to follow the toddler s lead back cover

this volume extends the knowledge base supporting research informed child care for infants and toddlers while simultaneously highlighting areas of study ripe for future research the authors demonstrate from a systems perspective that the experiences and outcomes of very young children in child care are influenced by characteristics of and interactions between the children adults and settings varying methodological approaches as well as the utilization of newer data collection instruments inform the field s understanding of current practices and procedures while offering guidance for future programming and policy in turn the chapters highlight a plethora of open questions and a need for a new generation of research to support the field of infant toddler care future challenges are evident in the recognition of the inadequate nature of our current measures of child outcomes and classroom processes the field s unmet promise to incorporate interdisciplinary perspectives and the need for newer methodological designs that blend the strengths of quantitative and qualitative approaches these issues are important given the growing demand for infant toddler care and the increasing recognition of the unique role of this age period in serving as the foundation for all later development this book was originally published as a special issue of early education and development

shows parents and caregivers how to understand toddlers

this pediatric primary care text takes a family centered approach examining issues from the perspective of the child and the caregiver unlike most primary care texts it blends traditional health care with complementary therapies throughout it identifies needs based on culture and ethnicity and lists community resources including websites where families can obtain more information or help features include case studies clinical pearls and clinical warnings compatibility blackberry r os 4 1 or higher iphone ipod touch 2 0 or higher palm os 3 5 or higher palm pre classic symbian s60 3rd edition nokia windows mobile tm pocket pc all versions windows mobile smartphone windows 98se 2000 me xp vista tablet pc
