the world's leading resource for diagnosing and treating any injury quickly, safely, and effectively. Doody's Core Titles for 2023 unparalleled in its breadth and depth of expertly crafted content. Trauma takes you through the full range of injuries you are likely to encounter with a full color atlas of anatomic drawings and surgical approaches. This trusted classic provides thorough coverage of kinematics and the mechanisms of trauma. Injury: the epidemiology of trauma, injury prevention, the basics of trauma systems, triage and transport, and more. It then reviews generalized approaches to the trauma patient from pre-hospital care and managing shock to emergency department thoracotomy and the management of infections. Delivers a clear organ-by-organ survey of treatment protocols and shows how to handle specific challenges in trauma including alcohol and drug abuse and combat-related wounds. In addition to post-traumatic complications such as multiple organ failure. 500 photos and illustrations. Color atlas. Numerous x-rays, CT scans, and algorithms. High yield section on specific approaches to the trauma patient. A to Z overview of management of specific traumatic injuries. Detailed discussion of the management of complications.

the gold standard text in dermatology, completely updated for today's practice by an all new editorial board. Encyclopedic in scope yet skillfully edited to make it easy to read and understand. This trusted classic delivers everything clinicians need to know about skin: skin symptoms and skin diseases presented in full color. Fitzpatrick's covers all the essentials from the basic science of skin to the day-to-day clinical issues of managing common skin disorders such as acne, skin cancer, and psoriasis, backed by the expertise of more than 500 world renowned contributors and the reference of choice for clinicians, students, and educators. Fitzpatrick's is enhanced by thousands of full color photographs and a wealth of newly enhanced tables and diagrams. The ninth edition is bolstered by a new global editorial team, a reorganized table of contents, a more simple, readable, and direct writing style, the incorporation of more genetic, syndromic, and treatment information into each chapter, the addition of first, second, and third line treatment options, and improved table presentation. The reorganized table of contents reflects how disease presents rather than its cause.
