several decades of international aid predominantly granted by the highly developed world the haves for the use of ict in developing regions known by several labels such as the have nots bottom of the pyramid the south or some time ago the third world have passed but the holy grail of turning these societies into the ideals defined by the donors is still elusive previously the emphasis was on top down approaches in this endeavour now priority is increasingly given to bottom up approaches putting the targeted communities first using methods such as co creation and living labs information and communication technologies for development ict4d is still a domain in search of a common ground the many different perspectives from diverse ideologies paradigms and theoretical perspectives here lead to an interesting debate but meanwhile agents of social change are doing their best to change communities ostensibly for the better an ongoing endeavour this discussion requires further investigation

of the complexities of techno societies the contributions to this volume range from explorations of theory models and methods to investigations into the practical implementation of ict in communities covering the characteristics of social groups and different generations and gender issues as well as its applications in education and health as such the contributions in this book will inform continuing debates concerning the role of ict in developing communities on the wrong side of all the technical and social divides in human societies

a look at how politics work in india shows what obstacles communities must overcome to use the political process to achieve important social and economic goals

this reissue first published in 1969 is a study of contemporary social policy in developing countries which places the emphasis upon the human needs and requirements for social change which confront any people and any government wherever their political and international affiliations lie whatever their economic and social convictions may be

in an effort to reduce poverty and improve nutrition this bank operation assisted the indian program operation flood to develop the dairy industry in india this study examines the policy changes instituted to support the aid flow to the dairy sector and discusses the lessons learned and benefits realized through improved dairy production it also presents suggestions for improvement this program differs from other bank efforts in that it focuses on a single commodity to alleviate poverty and raise living standards

this book provides an overview of the health of developing nations in the early twenty first century the basic assumption is that the health of a population is not independent of broader demographic trends and does follow

the health transition model the coverage is broad ranging from health transition in developing countries to the health of women to an analysis of morbidity population health is an essential component of human and social development as both a means and an end of development health lies at the heart of underdevelopment and ranks first on the list of international priorities the who slogan health for all in 2000 reflects the spirit of a more general movement in favor of health promotion throughout the world but the developing world is far from reaching this aim the health of populations has improved in developing regions but there are still deep inequalities and serious problems remain especially in sub saharan africa after reviewing the core concepts of population health the book examines health transition in developing countries a process that has resulted in a double burden of diseases a discussion of mortality in developing countries serves to highlight the high rates of child mortality in these regions the book devotes a full chapter to women s health and its chapter length analysis of morbidity highlights the double burden weighing down developing populations and concludes with an analysis of health systems in developing countries

this report analyses current trends of adaptation finance provided and mobilised by developed countries for developing countries it explores potential action areas for international providers to scale up funding for climate change adaptation including by unlocking the potential of the private sector

viewing development as a process of change that involves all elements of society the economic socio cultural political physical structures and the value system and way of life of the people this volume comprehensively brings together ideas about development and the transformation of societies from various disciplines the ten chapters comprising this study outline the process of development and analyze the many facets of the concept

of development it provides rich insight into the characteristics of developing societies theories of economic development demographic problems in development the role of agricultural development in economic transformation the concomitant process of urbanization and market development and the sociological and political aspects of development this multidisciplinary work is essential reading for students and practitioners of development studies sociology and political science policymakers planners and organizations involved in development work will also appreciate this volume brings together insights from a variety of disciplines to expound his view on the phenomenon of development and transformation of societies indian express the book is interesting and provides a useful holistic and integrated approach to the development of not just the economy but society as a whole the hindustan times the book would be found extremely useful by students of social disciplines and may turn out to be a textbook for a long time to come the tribune this is a useful book it is competently written it covers wide ground and it uses the disciplines of sociology and economics to examine the process of development from a holistic perspective book review

essays examine the history economies political problems revolutionary movements class systems social development and cultures of the underdeveloped countries from a radical perspective

list of members in each volume

As recognized, adventure as capably as experience just about lesson, amusement, as skillfully as accord can be
