v 23 the second part of henry the fourth 1940 v 24 25 the sonnets 1924 v 26 troilus and cressida 1953 v 27 the life and death of king richard the second 1955

the first complete account of the ideas and writings of a major figure in twentieth century intellectual life walter kaufmann 1921 1980 was a charismatic philosopher critic translator and poet who fled nazi germany at the age of eighteen emigrating alone to the united states he was astonishingly prolific until his untimely death at age fifty nine writing some dozen major books all marked by breathtaking erudition and a provocative essayistic style he single handedly rehabilitated nietzsche s reputation after world war ii and was enormously influential in introducing postwar american readers to existentialism until now no book has examined his intellectual legacy stanley corngold provides the first in depth study of kaufmann s thought covering all his major works he shows how kaufmann speaks to many issues that concern us today such as the good of philosophy the effects of religion the persistence of tragedy and the crisis of the humanities in an age of technology few scholars in modern times can match kaufmann s range of interests from philosophy and literature to intellectual history and comparative religion from psychology and photography to art and architecture corngold provides a heartfelt portrait of a man who to an extraordinary extent transfigured his personal experience in the pages of his books this original study both appreciative and critical is the definitive intellectual life of one of the twentieth century s most engaging yet neglected thinkers it will introduce kaufmann to a new generation of readers and serves as a fitting tribute to a scholar s incomparable libido sciendi or lust for knowledge

the controversy between wellhausen and kaufmann concerning the history of ancient israel and the question of historical reconstruction has prompted this study while wellhausen s hypothesis introduces a synthesis of the religious development of ancient israel kaufmann s work emphasizes the singularity of the israelite religion their respective works which represent the methodologies presuppositions and the ideologies of their times remain an impetus to further inquiry into the history of ancient israel and its religion both wellhausen and kaufmann applied the historical critical method but were divided as to its results they agree that the old testament hebrew bible is the primary source on which to base writing about the history of ancient israel but differ concerning the authority of its text this book illustrates the real clash between wellhausen and kaufmann with the aim of providing some basis for reaching a middle ground between these two poles as becomes clear in this study wellhausen reconstructed the religion of israel in the framework of its history kaufmann by contrast proposed that monotheism emerged in israel as a new creation of the spirit of israel

annotated bibliography covering two centuries of scholarly criticism on the extensive corpus of

medieval saints legends with the assistance of margaret rogersonsaints legends are being increasingly recognised as one of the most important genres of the middle ages and attract much critical attention this volume surveys the scholarly literatureof the nineteenth and twentieth centuries on the extensive middle english corpus it also provides a conspectus of the genre s history in the middle english period and its place in the development of the modern discipline of middle english while both the introduction and the annotations give attention to the problematic boundaries between genres and to the issues involved in separating out texts from their manuscript contexts general studies of the corpus as a whole are covered as well as discussions and editions of individual legends of the various extended cycles of legends and of sermon collections that include hagiographic legends and exempla the volume has been structured so as to provide an overview of the research on major works for example the south english legendary and st erkenwald and authors such as osbern bokenham john capgrave william caxton and john mirk it includesan index of scholars and critics keyed to the bibliography an index of middle english texts that covers all works of whatever genre mentioned in the annotations and an index of manuscripts that gathers the references to the over 170 manuscripts cited

science in medieval jewish cultures provides the first comprehensive overview by world renowned experts of what we know today of medieval jews engagement with the sciences many medieval jews whether living in islamic or christian civilizations joined maimonides in accepting the rationalist philosophical scientific tradition and appropriated extensive bodies of scientific knowledge in various disciplines astronomy astrology mathematics logic physics meteorology biology psychology science of language and medicine the appropriated texts in the original or in hebrew translation were the starting points for jews own contributions to medieval science and also informed other literary genres religious philosophical works biblical commentaries and even halakhic legal discussions this volume s essays will provide readers with background knowledge of medieval scientific thought necessary to properly understand canonical jewish scientific texts its breadth reflects the number and diversity of jewish cultures in the middle ages and the necessity of considering the fortunes of science in each within its specific context
