reading ability and vocabulary knowledge are two of the most important components of performance
in a second language especially in academic settings each depend on the other as vocabulary
knowledge is the single most important factor in reading comprehension while reading is the single
most important means by which intermediate and advanced learners acquire new words this
symbiotic relationship is the subject of this volume the authors argue that building vocabulary
through reading is a fruitful but complex activity that needs better understanding and more careful
guidance this book is unique in its emphases on original research eight of the 14 chapters are
empirical studies published for the first time including classroom based case studies experimental

research and think aloud protocol analysis in every chapter consideration is given to the pedagogical implications and possible applications of the research findings lengthy editorial comments at the end of each chapter reinforce this practical concern

this book is packed with dozens of field tested lessons for helping english language learners develop proficient reading skills

reading skills and vocabulary for struggling readers
