this volume presents 18 imf research studies on the causes and consequences of corruption as well as how it can most effectively be combated to improve governance increase economic growth and reduce poverty the authors examine how civil service wages affect corruption the impact of natural resource availability on corruption the impact of

corruption on a country's income distribution and incidence of poverty and the effect of corruption on government expenditures on health and education

understanding poverty and what to do about it is perhaps the central concern of all of economics yet the lay public almost never gets to hear what leading professional economists have to say about it this volume brings together twenty eight essays by some of the world leaders in the field who were invited to tell the lay reader about the most important things they have learnt from their research that relate to poverty the essays cover a wide array of topics the first essay is about how poverty gets measured the next section is about the causes of poverty and its persistence and the ideas range from the impact of colonialism and globalization to the problems of excessive population growth corruption and ethnic conflict the next section is about policy how should we fight poverty the essays discuss how to get drug companies to produce more vaccines for the diseases of the poor what we should and should not expect from micro credit what we should do about child labor how to design welfare policies that work better and a host of other topics the final section is about where the puzzles lie what are the most important anomalies the big gaps in the way economists think about poverty the essays talk about the puzzling reluctance of kenyan farmers to fertilizers the enduring power of social relationships in economic transactions in developing countries and the need to understand where aspirations come from and much else every essay is written with the aim of presenting the latest and the most sophisticated in economics without any recourse to jargon or technical language

michael wallerstein was a leader in developing a rigorous comparative political economy approach to understanding substantive issues of inequality redistribution and wage determination his early death from cancer left both a hole in

the profession and a legacy that will surely provide the foundation for research on these topics this volume collects his most important and influential contributions organized by topic with each topic preceded by an editorial introduction that provides overview and context

the economy studies project emerged from the worldwide movement to modernise economics education spurred on by the global financial crisis of 2008 the climate crisis and the covid 19 pandemic it envisions a wide variety of economics graduates and specialists equipped with a broad toolkit enabling them to collectively understand and help tackle the issues the world faces today this is a practical guide for re designing economics courses and programs based on a clear conceptual framework and ten flexible building blocks this handbook offers refreshing ideas and practical suggestions to stimulate student engagement and critical thinking across a wide range of courses key features are adapting existing courses plug and play suggestions to improve existing economics courses with attention to institutions history values and practical skills teaching materials a guide through the rapidly growing range of innovative textbooks and other teaching materials example courses and curricula how to design pluralist real world economics education within the practical limits of time and resources the companion website economystudies.com contains a wealth of additional resources such as tailor made booklets for more specific audiences additional teaching materials and links to plug and play syllabi and courses and opportunities for workshops and exchange with other economics educators

a general interest journal in economics

we review theoretical explanations for in kind transfers in light of the limited empirical evidence after reviewing the

traditional paternalistic arguments we consider explanations based on imperfect information and self targeting we then discuss the large literature on in kind programs as a way of improving the efficiency of the tax system and a range of other possible explanations including the samaritan s dilemma pecuniary effects credit constraints asymmetric information amongst agents and political economy considerations our reading of the evidence suggests that paternalism and interdependent preferences are leading overall explanations for the existence of in kind transfer programs but that some of the other arguments may apply to specific cases political economy considerations must also be part of the story

time series data for argentina suggest that action to support propoor social spending is warranted at times of fiscal contraction social spending in general and social spending targeted to the poor in particular took a heavy hit at times of fiscal austerity
