available open access digitally under cc by nc nd license in capitalism reloaded peter bloom charts a pivotal shift from the well known military industrial complex to a new authoritarian financial complex unlike its predecessor which centred on armaments and defence this emerging power structure fuses financial interests with advanced surveillance and digital control turning social repression into a lucrative industry bloom introduces a ground breaking theory of complex power where control itself becomes a central driver of capitalism shaping economies and societies bloom explores how this insatiable demand for security and profit extends beyond traditional authoritarian regimes permeating everyday life and eroding democratic freedoms this book challenges readers to confront the deep

entanglements of modern capitalism before they solidify into a techno authoritarian order

the themes of migration and economic development are traditionally related the debate over these issues has recently gained great relevance particularly in europe as the phenomenon of migration tends to be seen as a possible consequence and cause of political and environmental unrest in this case the impacts of migration have not only to do with development but also with welfare social norms and political stability in recent months the issues of xenophobia of openness to refugees of a reasonable attitude towards international migration have come to the fore as a key to the future shape of europe the discussion is unfortunately couched in extreme and irrational terms social scientists may bear part of the responsibility for this because for a very long time they devoted only minimal attention to the phenomenon of international migration and we are still lacking a coherent view which will integrate international development with the freedom of movement of capital and labour and the preservation of the environment given the growing attention on the issue the conference organised by fondazione eni enrico mattei on 3 4 june 1991 at the centro studi americani in roma was extremely timely in the light of new migration phenomena such as the migration wave into germany from the east or into italy from albania the conference represented a unique opportunity to think of new policy measures to tackle migration

china's borderland economy has grown significantly recently thanks largely to a favorable institutional environment created by national strategies such as the development of the western part of china revitalization of old industrial bases in the northeast and the anti poverty campaign this work draws on theories of international economics and spatial economics to study the regional economic integration of china's border areas with the aim of shedding light on how to improve policies and practices it discusses topics such as the transformation of border trade industrial upgrading and urbanization in borderlands especially in the context of cross border economic integration furthermore the book also explores ways in which changes in the border might contribute to the formation of peripheral economic growth centers and related environmental institutional and policy issues it will interest scholars of asian economic trends and the rise of china particularly in southeast asia

more than one billion people still live below the poverty line most of them in south asia and sub saharan africa financial inclusion is a major issue as more than three quarters of the numbers of poor and disadvantaged women and men do not have access to financial products and services such as bank accounts affordable and suitable loans and insurance the key objective of this book is to provide practical case studies of financial inclusion rather than focus on academic debates such as the ideological basis of promoting microfinance using

the recently adopted sustainable development goals as an overall framing of the issues it shows how poor and disadvantaged women and men can be bankable if the right facilitation for maximizing opportunities and addressing constraints are in place case studies confirm that achieving inclusive and sustainable access to financial products and services goes beyond simply enabling poor and disadvantaged women and men to have access to credit or the ability to open a bank account examples from africa asia and latin america demonstrate encouraging progress in making microcredit accessible to millions of poor people the foremost challenge however has been to ensure that they have access to and usage intensity of suitable and affordable financial products and services that meet the needs of their livelihoods as well as risks and mitigation strategies this requires understanding that poor and disadvantaged women and men do not exist in isolation from complex and interdependent functions in the financial system which includes a number of actors diversified services constraints not just symptoms and capacities and incentives overall the book provides a rich source of examples of how building inclusive financial systems can empower the world's poor by increasing income and employment opportunities securing livelihoods and reducing poverty

home economics is an urgent and much needed reminder that society must pay careful attention to how nationalist ideologies construct homelands that essentially leave the vast majority of the world's migrant peoples homeless

this book synthesizes urban design and urban regeneration by examining the revitalization of a number of historic urban quarters its focus is on quarters or areas where there is a significant number of historic buildings concentrated in a small area with places and area based approaches many cities have such quarters that confer on them a sense of place and identity through their historic continuity and cultural associations the quarters are often an integral element of the city's image and identity the lessons and observations from the experience of the revitalization of such historic urban quarters forms the core of this book with a number of case study examples from north america and europe showing a variety of approaches to and outcomes of revitalization

this book contains the refereed proceedings of the second international conference on exploring services science iess that was held in geneva switzerland in february 2010 based on the previous edition and the momentum in this emerging and exciting field iess 2011 offered academics researchers and practitioners from various disciplines an exploratory platform to communicate and share their results and experiences the 17 full and 2 short papers accepted for iess were selected from 47 submissions and cover the whole life cycle of service development including service innovation service design service composition and service sustainability as well as the application of services in information technology businesses and public administration

modeling economic growth in contemporary indonesia explores indonesia s most recent business and economic developments with chapters covering topics such as smes public companies stock markets government or non profit organizations to explain the economic growth and relevant factors

this book examines southeast asia s rejection of international refugee law through extensive archival analysis and argues that this rejection was shaped by the region s response to its largest refugee crisis in the post 1945 era the indochinese refugee crisis from 1975 1996

a theoretical framework aiming to facilitate study of development economics the author presents his theory in three sections how advanced nations developed a proposed third dimension in addition to labour and capital and why capital accumulation is unnecessary even potentially harmful
