in this provocative study economist ernesto screpanti argues that imperialism far from disappearing or mutating into a benign globalization has in fact entered a new phase which he terms global imperialism this is a phase defined by multinational firms cut loose from the nation state framework and free to chase profits over the entire surface of the globe no longer dependent on nation states for building a political consensus that accommodates capital accumulation these firms seek to bend governments to their will and destroy barriers to the free movement of capital and while military force continues to play an important role in imperial strategy it is the discipline of the global market that keeps workers in check by pitting them against each other no matter what their national origin this is a world in which the so called labor aristocracies of the rich nations are demolished the power of states to enforce checks on capital is sapped and global firms are free to pursue their monomaniacal quest for profits unfettered by national allegiance screpanti delves into the inner workings of global imperialism explaining how it is different from past forms of imperialism how the global distribution of wages is changing and why multinational firms have strained to break free of national markets he sees global imperialism as a developing process one with no certain outcome but one thing is clear when economic crises become opportunities to discipline workers and when economic policies are imposed through increasingly authoritarian measures the vision of a democratic and humane world is what is ultimately at stake

this book argues that the trade distorting effects of advantages associated with soes are more severe from an economic perspective and the behavior of soes after receiving advantages is of more concern compared to private owned enterprises pues the premise is that the existence of soes per se is not the essential problem rather the underlying problems are i the disproportionate granting of advantages to soes compared to pues and ii the behavior of soes once they receive advantages the book offers a systematic analysis focusing on the various advantages granted to soes and their subsequent behavior its detailed analysis reveals the inadequacy of current wto rules and is complemented by a number of concrete proposals

in this much needed book graham dunkley challenges the oft repeated notion that free trade and global integration are the best means of development for all nations at all times an idea that has proved even more misguided in the wake of the global financial crisis by contrast dunkley reveals through a wide range of statistical analysis and case studies that at best the evidence is mixed looking systematically at issues such as trade led growth supply chains and financialization one world mania reveals the many problems that over globalization has caused often at great human cost an indispensable guide for anyone wishing to understand the shortcomings of current global economic policies
