this volume is a translation and commentary on the works of three geographers from greco roman antiquity Hanno of Carthage from around 500 BC the author of the *Periplus* dedicated to King Nikomedes from the last half of the second century BC and Avienus from the fourth century AD the modern translations of texts in this book represent 1 000 years of greco roman geographical scholarship and thus provide an overview of the discipline from its beginnings to late antiquity readers will learn about the development of Greek geography and the earliest adventures outside the Mediterranean into the Atlantic as far south as the tropics and north toward the Arctic these explorations make for fascinating stories about early human endeavors into an unknown world three ancient geographical treatises in translation offers specialists new information about Greek exploration and a modern translation of significant ancient texts while non specialist scholars and undergraduate students with an interest in greco roman literature and ancient geography will also find the volume useful and accessible

Geographers is an annual collection of studies on individuals who have made major contributions to the development of geography and geographical thought subjects are drawn from all periods and from all parts of the world and include famous names as well as those less well known including explorers independent thinkers and scholars each paper describes the geographer's education life and work and discusses their influence and spread of academic ideas each study includes a select bibliography and a brief chronology the work includes a general index and a cumulative index of geographers listed in volumes published to date published under the auspices of the International Geographical Union

this volume offers a detailed study of Ptolemy of Alexandria's geographical guide whose eight books contain a wealth of geographical information unavailable elsewhere and represent the culmination of the greco roman discipline of geography written near the middle of the second century AD the geographical guide is the most anomalous of the surviving works of ancient geographical scholarship but offers a vivid record of the expansion of geographical knowledge in antiquity Roller examines this peculiar text which offers unique data about explorations in the far reaches of the inhabited world from Thule and Hibernia in the northwest to Kattigara in the southeast and from Serice in northeastern Asia southwest into central Africa he positions the guide within the tradition of ancient

geography and gives close attention to the reason why Ptolemy wrote the guide and how it contributes to the genre of geographical scholarship there is also an emphasis on the topographic and ethnic material within the guide that is new or unique especially explorations in sub-Saharan Africa and knowledge of the world beyond India because the guide was written over half a century after the previous extant geographical work the first books of Pliny's Natural History the book also assesses how knowledge of geography changed during this period this work is an essential text for students and scholars of ancient geography and is also of interest to anyone working on the cultural history of the Roman Empire during this period

this is a complete six year course that provides an engaging introduction to the subject using real life examples from around the globe the course covers both human and physical geography from the basics of mapping to current hot topics such as how to meet the resource needs of the world's population a complete six year primary geography course created for the international student illustrated with high quality artwork and stunning photography from all corners of the globe student books offer easily accessible text covering real life case studies from around the world write in workbooks provide extra activities for the classroom or at home the teacher's guide provides step by step guidance for each lesson as well as background knowledge and geographical information for specialist and non specialist teachers

scientific and anthropological evidence for multiple Atlantean empires and the global catastrophes that destroyed them reveals that there was not one but three Atlantises the first in Antarctica the second in South America and the third in the Mediterranean examines geological evidence of super floods 15 000 11 600 and 8 700 years ago shows how these flood dates directly parallel the freezing of Antarctica the migrations of Cro-Magnon men and the destruction of Atlantis according to Plato 15 000 years ago the Earth's axis tilted shifting the geographic poles volcanoes erupted the icecaps melted and the seas rose dramatically Antarctica was enveloped in ice destroying the high civilization of prehistory Atlantis but before the survivors could reestablish what they had lost catastrophe struck again twice uniting scientific findings with theories on the location of Atlantis the authors reveal that there was not one but three Atlantises the first in Antarctica the second in South America and the third in the Mediterranean examining paleoclimatology data they show that Antarctica was temperate 15 000 years ago and home to the original Atlantis they explore geological evidence of three worldwide super floods 15 000 11 600 and 8 700 years ago and show how these dates directly parallel the freezing of Antarctica the arrival of Cro-Magnon man in Europe and the destruction of Atlantis according to Plato uncovering the influence of the Atlanteans in Proto-Indo-European languages and in massive ancient monuments aligned with the stars they show how the civilization founders in all early myths the Pelasgians Danaans Viracocha Aryans and others were part of the Atlantean

diaspora and how this migration split into two major movements one to latin america and the other to europe and asia following the atlanteans from a warm antarctica up to peru mexico and the mediterranean they reveal that cro magnon men are the people of atlantis and that we are just now returning to their advanced levels of science technology and spirituality
