the maintenance and effective use of cultural heritage involves important economic aspects yet the field of contemporary cultural policy is surprisingly void of comprehensive analysis from an economic perspective prominent academics and practitioners here fill this gap they examine the theoretical background on the value of cultural heritage consider policies from Italy France Britain and Japan and make concrete proposals for changes in cultural heritage policy

this book aims to provide researchers from basic disciplines of the economics fields such as consumer behavior and public economy with a variety of distinctive perspectives in today's world where the behavior and preferences of economic actors have changed completely and the economic policies of countries have been redrafted

the rapid advancements in artificial intelligence AI are reshaping how copyright is created shared and protected introducing both opportunities and challenges AI technologies can enhance creativity and innovation but they also raise complex legal and ethical questions about ownership licensing and the economic value of intellectual property as copyrights hold significant economic importance as intangible assets understanding their interaction with AI is critical for adapting legal systems and fostering equitable economic growth this evolving landscape impacts creators businesses and societies by influencing how cultural and intellectual works are produced and monetized in the digital age legal and economic perspectives on the nexus of AI and copyright addresses AI and copyright issues with a legal and economic analysis it analyzes the effects of AI on law and economic policy and further makes policy recommendations covering topics such as copyright infringement deepfakes and public policy this book is an excellent resource for policymakers economists business leaders academicians researchers and more

this volume considers trade liberalisation and development from an economic perspective aiming to examine these emotive issues using empirical approaches and dispassionate analysis

economic crime is by definition crime committed to gain profit within an otherwise legitimate business examples are

illegal pollution brand name infringement and tax evasion the victims of such crimes may be private citizens businesses and the state the leading authors in this vital new book survey recent advances in the study of economic crime from a variety of disciplinary perspectives the key areas examined are the economics of corporate crime enforcing regulation law and economics of environmental crime corporate fraud and tax evasion the history of economic crime this important volume will be of interest to scholars and policymakers involved in examining and regulating economic crime in both developed and developing countries

now in its fourth edition this best selling reader in international political economy offers 31 solid articles 15 new by renowned scholars in political science and economics frieden and lake have edited and introduced each reading with care to ensure its accessibility to students who are new to the subject this reader continues to offer a provocative look at the postive and negative impacts of globalization

this volume offers a snapshot of the resurgent historiography of political economy in the wake of the ongoing global financial crisis and suggests fruitful new agendas for research on the political economic nexus as it has developed in the western world since the end of the middle ages new perspectives on the history of political economy brings together a select group of young and established scholars from a wide variety of disciplinary backgrounds history economics law and political science in an effort to begin a re conceptualization of the origins and history of political economy through a variety of still largely distinct but complementary historical approaches legal and intellectual literary and philosophical political and economic and from a variety of related perspectives debt and state finance tariffs and tax policy the encouragement and discouragement of trade merchant communities and companies smuggling and illicit trades mercantile and colonial systems economic cultures and the history of economic doctrines more narrowly construed the first decade of the twenty first century bookended by 9 11 and a global financial crisis witnessed the clamorous and urgent return of both the political and the economic to historiographical debates it is becoming more important than ever to rethink the historical role of politics and indeed of government in business economic production distribution and exchange the artefacts of pre modern and modern political economy from the fourteenth through the twentieth centuries remain monuments of perennial importance for understanding how human beings grappled with and overcame material hardship organized their political and economic communities won great wealth and lost it conquered and were conquered the present volume assembling some of the brightest

lights in the field eloquently testifies to the rich and powerful lessons to be had from such a historical understanding of political economy and of power in an economic age

this festschrift is published in honour of annalisa rosselli a political economist and historian of economic thought whose academic activity has promoted unconventional ways of thinking throughout her career a renowned list of scholars articulate and respond to this vision through a series of essays leading to an advocacy of pluralism and critical thinking in political economy the book is split into five parts opening with a section on new topics for the history of economic thought including new perspectives in gender studies and an illustration of the fecundity of the link with economic history this is followed by sections that address relevant perspectives on the classical approach to distribution and accumulation ricardo interpretation of sraffa and the legacy of keynes this book will appeal to students interested in reforming economics as well as academics and economists interested in political economy and the history of economic thought

with contributions from leading historians of economics from six countries this work analyses schumpeter s contribution to the history of economics and uses it as a benchmark to assess the current state of the field
