financial reporting practices differ widely between countries and this has far reaching implications for multinational businesses over more than a century there have been attempts to classify countries into groups by similarities of practices with the recent spread of international financial reporting standards it might appear that classification is largely of historical interest but this is not the case for several reasons explained in this book christopher nobes offers a critical analysis of the many previous accounting classifications having drawn lessons from other fields of science and social science revised and updated to reflect the ifrs era the book discusses how old classifications are reflected in today s international differences in practice under ifrs it concludes with a discussion on the most useful classifications and how classifications can still be relevant in the era of international standards this book will be essential for academics postgraduates and undergraduates in international accounting accounting theory and to international accounting professionals

this research monograph critically examines convergence of financial reporting in germany by taking into account the influence of political social and economic factors on accounting this study makes an original and significant contribution by examining issues and biases in the convergence process that may challenge the assumption of superiority

for more than 20 years network world has been the premier provider of information intelligence and insight for network and it executives responsible for the digital nervous systems of large organizations readers are responsible for designing implementing and managing the voice data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce

volume 27 of the international symposia in economic theory and econometrics series collects a range of unique and diverse chapters each investigating different spheres of development in emerging markets with a specific focus on significant engines of growth and advancement in the asia pacific economies

offering a comparative examination of the international dimensions of financial accounting and reporting this text gives an overview of international differences in accounting and financial reporting it examines individual countries and looks at four major financial reporting issues

as business and capital markets have continue to grow more global over recent years the need for cross border financial information has correspondingly increased this has

brought international accounting to the forefront international accounting a user perspective is designed to provide an understanding of international accounting issues to current and future business managers the book takes a user perspective to international financial reporting because most business executives are more likely to be users of financial information that crosses national borders than users of it with the recent problems exposed in the quality of financial reporting in many countries a solid understanding of international accounting issues is an important part of the portfolio of skills that managers in medium and large enterprises must possess

the measurement of harmonization became a well established area of academic research from the late 1980s and the discerning selection of papers in this volume reveal a continuing interest in the topic by a large number of researchers the coverage is divided into two parts the first part concerns the measurement of harmonisation and the second contains analysis of and comment on harmonization this authoritative new volume will be of great interest to all those concerned with the issue of harmonization in international accounting
