the purpose of this book is to introduce the reader to the law of agency and partnership as well as company law it assumes that the reader is familiar in outline with the hong kong legal system and knows something about the law of contract it is one of a series published by the hong kong university press under the general editorship of professor derek roebuck to provide accounting students with an introduction to hong kong law

our purpose in writing this book is multifaceted first this book aims to present a clear understanding of going concern valuations at the same time resolving the current misrepresentations surrounding the issue additionally this book offers a new set of rules readers can use to determine which property types qualify as going concern valuations and which do not this book presents an understanding that in performing a going concern valuation of properties which are perceived to have a business component it may not be possible to segregate allocate or value the components individually for

example when appraising the going concern value of a motel with occupancy of 75 it could be argued and possibly proven that there is a value that can be separated from the overall value or going concern value to the business component on the other hand however appraising that same motel with only 40 occupancy presents a completely different set of circumstances that could easily draw completely opposite conclusions it simply may be a lack of sufficient tools or data to argue and prove that the business component in fact has value separate from the real estate to do so with authority is tantamount to ignorance or arrogance

a short user friendly guide to the essential procedures of conducting a meeting written by the authors of robert s rules of order newly revised the only authorized edition of the classic work on parliamentary procedure originally published in 1876 robert s rules of order is the definitive book on parliamentary proceedings yet those not well versed on what has now become a rather thick document can find themselves lost the solution robert s rules of order newly revised in brief written by the same authorship team behind the officially sanctioned robert s rules of order this edition takes readers through the rules most often needed at meetings from debates to amendments to nominations with sample dialogues and a guide to using the complete edition robert s rules of order newly revised in brief is the essential handbook for meetings proceedings

this book studies data analytics and intelligence using boolean structure chapters dive into the theories foundations technologies and methods of data analytics and intelligence the primary aim of this book is to convey the theories and technologies of data analytics and intelligence with applications to readers based on systematic generalization and specialization sun uses the boolean structure to deconstruct all books and papers related to data analytics and intelligence and to reorganize them to reshape the world of big data data analytics analytics intelligence data science and artificial intelligence multi industry applications in business management and decision making are provided cutting edge theories technologies and applications of data analytics and intelligence and their integration are also explored overall this book provides original insights on sharing computing insight computing platform computing a calculus of intelligent analytics and intelligent business analytics meta computing data analyticizing ddpp descriptive diagnostic predictive and prescriptive computing and analytics this book is a useful resource with multi industry applications for scientists engineers data analysts educators and university students
