includes proceedings of the association papers read at the annual sessions and list of current medical literature

duffy s work traces nuclear politics from the creation of a powerful subgovernment through the public lobby reforms of the late 1960s and early 1970s and the deregulatory backlash of the reagan years he demonstrates that while policies did change in the 1970s they did not change as much as other accounts have suggested and that the industry continued to receive considerable federal support the book is particularly significant for extending the discussion of nuclear policy through the bush and clinton years including the controversy over waste disposal new licensing procedures enacted in the 1992 amendments to the atomic energy act and the effects of deregulation of electric utilities amazon com viewed august 24 2020
