multinationals are increasingly taking internationalised approaches to the ways in which they generate new knowledge and develop innovative new products from it in the pursuit of global competitiveness these new perspectives in mnes technological behaviour open up important additional possibilities for those countries that play host to operations of these companies this book analyses in detail the new dimensions in mnes approach to global competitiveness and the role played in this by overseas r d units and discusses the implications of this for host countries growth and welfare

dramatic changes are taking place in the world of international business as we move forward in the twenty first century increasing levels of international trade and foreign direct investment the growth of huge multinational corporations and the emergence of new centres of economic

prosperity are all evident businesses are faced with the challenge of having to survive and succeed in this competitive environment this book looks specifically at the question of how firms attain a sustainable competitive advantage in a global environment characterised by above average levels of geographic scope marketing convergence and cross national interdependencies this work will be of essential interest to academics and researchers in the fields of international strategy and international business

highly recommendable to anyone interested in international competition policy andnd christiansen european competition law review this book provides a comprehensive and refreshing analysis of the competition issues raised by the globalisation of markets it draws on a very wide range of economic and legal sources to assess the manifold proposals for controlling the competitive forces released by the freeing up of world markets all those interested in these important and largely unresolved issues will find it an invaluable source of reference michael a utton university of reading uk and dongbei university of finance and economics dalian china the globalization of market competition and business behaviour fosters globalization of cartels and monopolising mergers that can lead to abusive and predatory strategies the globalization of competition therefore also demands an internationalization of competition policy however oliver budzinski is realistic in his assertion that supranational competition governance must be built upon the existing predominantly national regimes the resulting multilevel system of antitrust institutions and authorities he argues is problematic for the horizontal and vertical allocation of competences this book employs the economics of federalism to create an analytical framework which can be used for comparative analysis of stylised competence allocation rules the result is a proposal for a sound international multilevel competition policy system that combines elements of both centralized and decentralized governance this book provides an innovative and unique perspective on international competition policy and will be of interest to economists legal scientists and competition authorities as well as academics and practitioners of international governance and international relations and politics

climates of competition studies the innovations and manoeuvres of geographically proximate competitors to further understand the nature and dynamics of competition through case studies of manufacturers competing for shares in three industrial markets agricultural machinery processing equipment and heavy lifting equipment a detailed picture of the nature of competition emerges by combining questions of geography with those of corporate strategy this study provides an advanced analysis of the relationship between competition and corporate learning processes

with today s social and geopolitical order in significant flux this project offers vital insight into the future global order by comparatively charting national media perceptions regarding the future of global competition through the lens of ontological security as the authors employ a mixed method approach to analyze 620 news articles from 47 russian chinese venezuelan and iranian news sources over a five year period 2014 2019 quantitatively comparing the drivers of their visions while providing in depth qualitative case studies for each nation not only do these narratives reveal how these four nations understand the current global order but also

point to their in flexibility and agentic capacity for reflection in adapting even shaping the future order and their identity roles within it around an economic and diplomatic battleground the authors argue these narratives create trajectories with inertial effects grounded in their os needs providing enduring insights into their behavior and interests moving into the future the future of global coopetition will help readers understand how influential nations typical aligned in opposition to the us envision the drivers of global competition and the make up of the future international system those engaged in the study of media global politics international relations and communication will find this book to be a critical source

employs the economics of federalism to create an analytical framework which can be used for comparative analysis of stylised competence allocation rules this book offers a perspective on international competition policy it is suitable for economists legal scientists and competition authorities

changes in the dynamics of economic activities since the last decades of the 20th century have yielded major changes in the composition of industries and the division of labor and production across different regions of the world despite these shifts in the global economy some industries have remained competitive even without relocating their operations overseas industries and global competition examines how and why the specificities of certain industries and firms determined their choice of location and competitiveness this volume identifies the major drivers of this process and explains why some firms and industries moved to other parts of world while others did not relocation was not the sole determinant of the success or failure of firms and industries indeed some were able to reinvent themselves at their original location and build new competitive advantages the path that each industry or firm took varied this book argues that the specific characteristics of each industry defined the conditions of competitiveness and provide a wide range of cases as illustrations aimed at scholars researchers and acadmeics in the fields of business history international business and related disciplines industries and global competition examines the unique questions how and why did the specificities of certain industries and firms determine their choice of location and competitiveness chapter 11 of this book is freely available as a downloadable open access pdf at taylorfrancis com under a creative commons attribution non commercial no derivatives cc by nc nd 4 0 license

in its own words the mission of the international competition network the icn is to advocate the adoption of superior standards and procedures in competition policy around the world formulate proposals for procedural and substantive convergence and seek to facilitate effective international cooperation to the benefit of member agencies consumers and economies worldwide icn members include nearly all competition authorities ncas from around the world over 100 of them since its inception the icn has also sought to enrich its discussions and outputs through the inclusion of non governmental advisors ngas principally large multi nationals and the legal and economic professions the icn is a transnational network set up by its members largely without wider state input this book hypothesises that the icn s formally neutral structures provide powerful influence mechanisms for strong ncas and ngas over the weak and competition experts over wider state interests discussing the legitimacy of

this from a political and legal theory perspective analysing the icn s effectiveness and efficiency and suggesting ways that the icn can improve all three this study has important implications for the icn itself particularly as it launches its third decade project billed as a full self evaluation however the story told here is also relevant to states and the wider regulatory community due to the widespread use of transnational networks

a key factor in the emerging relationship between law and economic globalization is how global competition now shapes economies and societies competition law is provided by those players that have sufficient power to apply their laws transnationally this book examines this important and controversial aspect of globalization

this book provides a framework for understanding the nature of international competition in industries its strategic implications for firms it documents the historical transformation of international competition shows how global competition changes the way marketing production government relations finance should be managed the book also addresses the organizational challenges involved in implementing global strategies in depth case studies illustrate the interplay of these factors in particular industries chosen to illuminate the issues facing today s managers when the world s acknowledged authority on competitive strategy meshes his concepts into an international framework fresh insights are bound to emerge porter with a lot of help from his harvard colleagues doesn t disappoint international management
