this book aims to provide theoretical and empirical interpretations of certain phenomena in the development of china s cultural industry using the film and television industries as the major cases the author proposes suggestions on china s ongoing development of foreign cultural trade the author argues that china is well positioned to take full advantage of the opportunities of globalization to develop its cultural industry in a leapfrog manner china s rapid economic growth drives the country s development from a small cultural market to a large one since it is a middle income country its cultural industry still has a relatively large potential to grow the study on china s foreign cultural trade strategy can contribute to the growing needs of

people for a better life and enhance China's cultural confidence with an explanation of existing practices this book also aims to make recommendations on China's strategy for developing foreign cultural trade in the era of globalization this book will be a good read for students researchers and scholars of Chinese studies East Asian studies and culture economics and those interested in China's film and television industries

Alexis de Tocqueville's writings on honor and his observation that a democracy's definition of honor stands for the peculiar individual character of that nation before the world provide inspiration for an ideal entrepreneurial innovator discussed in this book beginning with Aristotle contributions of the giants of moral political and economic thinking are aggregated in a credo for honorable entrepreneurs who are dedicated to freedom and general human flourishing the credo's maxims and duties can help entrepreneurs prevent a separation of the honorable and the useful which is a moral challenge faced by many leaders in all parts of society like minded individuals who share this vision can rebalance power and repair America's triune social order while creating wealth and a surplus that can benefit the poorest among us

Since 2005 China has been accused of causing the trade deficit and manipulating the exchange rate at the same time there have been arguments against the RMB appreciation the reason for this conflict is the lack of quantitative research or elaboration on many extremely important indicators to correctly describe the industrial chain and value added process around the world it is necessary to identify data by using new methods and separating the processing trade from the non processing trade based on the global trade analysis project GTAP data this book establishes a global multi department computable general equilibrium GCMGE model based on the continuous global input output database it focuses on the computable general equilibrium CGE model that constructs a consistent interaction mechanism within the economic system and fully reflects the general equilibrium characteristics and thus tries to avoid the limitations of the partial equilibrium model it shows how the GCMGE framework can distinguish the processing trade from non processing trade in the input output data and at the same time ensure the endogenous equilibrium of the social accounting matrix SAM after distinction provided by the publisher

Economic growth reflected in increases in national output per capita makes possible an improved material standard of living and the alleviation of poverty sustainable development popularly and concisely defined as meeting the needs of the present generations without compromising the ability of future generations to meet their needs directly addresses the utilization of natural resources the state of the environment and intergenerational equity now in its second edition economic growth and sustainable development features expanded discussion of income distribution social capital and the insights of behavioural economics for climate change mitigation boxed case studies have been added which explore the impact of economic growth on people and countries in both the developed and developing world this text addresses the following fundamental questions what causes economic growth why do some countries grow faster than others what accounts for the extraordinary growth in the world's population over the past two centuries what are the current trends in population and will these trends continue how do we measure sustainable development and is sustainable development compatible with economic growth why is climate change the greatest market failure of all time what can be done to mitigate climate change and global warming with a blend of formal models empirical evidence history and policy this text provides a coherent and comprehensive treatment of

economic growth and sustainable development it is suitable for those who study development economics sustainable development and ecological economics
