in many respects sismondi s thought was ahead of its time schumpeter credited him as the father of dynamic analysis in the modern sense he is also recognized by all as the pioneer of business cycle analysis until this book there had been no full translation of his major work in english this translation will illuminate the genesis of marxist ideology and some of the basic causes of its failures

by looking at 20 reform efforts in ten oecd countries this report examines why some reforms are implemented and other languish

what constitutes global political economy in whose interest is gpe constructed and by whom how can injustices in gpe best be redressed these are some of the key questions addressed in the 7th edition of this highly regarded highly regarded textbook as an ever evolving field subject to constant changes and developments the new edition provides a comprehensive introduction to the subject written by leading experts in the field edited by dr erin hannah the 7th edition surveys major contemporary issues and debates in gpe while being attuned to the silences marginalizations and exclusions that predominate the field by integrating a wide range of theoretical approaches rich empirical material non western viewpoints and diversity of contributors the 7th edition provides enhanced coverage of the central axes of inequality in gpe and centers topics such as colonialism race gender north south divides and everyday life

mittell analyses the extent to which the current political paradigm is capable of meeting the challenges of climate change she argues that unless there are fundamental changes to policy making it is unlikely that energy policies will be able to deliver sufficient change to enable a move to a sustainable energy economy

what are the central questions of economics and how do economists tackle them this book aims to answer these questions in 100 essays written by economists and selected from the new palgrave a dictionary of economics it shows how economists deal with issues ranging from trade to taxation

offering a coherent overview of the historical and institutional context of enduring patterns in east asian political economy this updated and expanded second edition textbook explores the dramatic regional and international transformations that this key region has faced since the 2008 financial crisis

this collection of studies on the political economy of pacific island countries was authored by writers from various disciplinary backgrounds their research confirms the results of political economy studies of economic reform in developing countries from elsewhere around the world and shines new light on the kinds of obstacles that have to be overcome for economic reform to be successful in the pacific this publication presents many valuable lessons for agencies assisting in the economic development of pacific island countries publisher s website

this timely book brings fresh analysis to the important issue of trade policy reform in emerging markets the subject matter and its significance are comprehensively introduced with a review of developing country liberalization since the 1980s providing an analytical framework for the seven country case studies that follow the case studies australia brazil chile india malaysia new zealand and south africa cover a wide variety of political historical and economic issues but all make clear the important role that crisis or the threat of it plays in meaningful trade policy reform this is of particular relevance in the current global financial crisis these studies together with the conclusions which are drawn from them show how important the trade liberalization agenda remains in the 21st century written by a combination of both experts and practitioners this highly topical book will make productive

reading for policy makers concerned with trade policy in developed and developing countries as well as scholars working in trade policy postgraduate students studying international business international relations economics politics and international law should not be without this book

broadly viewing the global economy as a political competition that produces winners and losers international political economy holistically and accessibly introduces the field of ipe to students with limited background in political theory history and economics this text surveys major interests and institutions and examines how state and non state actors pursue wealth and power emphasizing fundamental economic concepts as well as the interplay between domestic and international politics international political economy not only explains how the global economy works it also encourages students to think critically about how economic policy is made in the context of globalization

master s thesis from the year 2025 in the subject politics region usa grade 1 3 free university of berlin john f kennedy institute language english abstract the dissertation aims to reveal the root causes of institutional inequality in the us higher education system with the collapse of the american dream as the realistic background this research raises the question how is inequality institutionally constructed maintained and exacerbated in a seemingly fair and widely expanded higher education system the study focuses on the student loan system a key node as an institutional turning point in the national transition from public funding to private debt it systematically examines its mechanisms in policy design ideological discourse and class reproduction in theory the dissertation defines inequality as a structural reproduction mechanism emphasizing that the joint action of power institutions and ideology forms it based on the 3i model ideas institutions interests and introducing lobbying and rent seeking theories an analytical model for understanding institutional bias and interest solidification is constructed in terms of methods the dissertation combines process tracking case study discourse analysis and logistic regression to conduct a multi level analysis of the federal government s student loan policy from 2010 to 2024 the study finds that inequality in the us higher education system is mainly reflected in four mechanisms exclusion of public participation ideological hegemony class differentiation and the institutional lock in effects together these mechanisms constitute a structural encirclement of public resources by government and capital which conceals the true face of structural institutional inequality ultimately it points out that the inequality does not stem from the coincidental governance or policy failure instead it is the product of the inherent contradictions of the democratic capitalist system to break through the institutional dilemma the study suggests a political resistance normativity based on marx s concept of free and fully developed individuals and the reconstruction of political imagination

this book provides an overview of the dynamics of the contemporary global political economy with an emphasis on explaining these dynamics in both theoretical and practical terms it opens with a chapter on exactly what the study of ipe entails looking at the way in which politics and economics interact the relationship between domestic and international factors

and the role of the state watson goes on to outline the major theoretical approaches to ipe from the traditional theories including liberalism and marxism to alternative theories including rational choice and new institutionalism in part two she outlines the major policy issues characterizing ipe and in part three she looks at case studies to illustrate the theoretical points she has made these include the world trade negotiations at seattle a description of the reasons for growth in regional integration arrangements such as the eu and a discussion of the impact of capital flight

this edited volume seeks to provide a critical and technical look at international political economic indices peis it examines measurement issues relates peis to economic theory and suggests better measures than those currently used

emphasizing both domestic and international politics as well as fundamental economic principles international political economy is the field s most accessible and holistic overview of the global economy while surveying key ipe theories economic principles institutions and processes the text explains how international competition raises social welfare but also creates winners and losers who influence the policies of governments and international institutions and ultimately the global economy book jacket

brazil russia india and china are expected to become the four most influential economies and surpass the current richest economies by the middle of the 21st century with the inclusion of south africa in 2010 the brics spans across four continents creating an abundance of geopolitical clout in addition to its potential economic dominance this book examines the economic developments of individual brics countries the current politico economic condition of the brics vis à vis non brics countries or groups and the potential of the brics to bring about changing paradigms in the global political economy

brings together leading international experts to provide an authoritative introduction to the major subject areas on undergraduate courses in global political economy each chapter makes use of learning aids such as summary boxes chronologies case studies web links and further reading
