This introductory text introduces basic concepts in cultural anthropology by comparing cultures of increasing scale and focusing on specific universal issues throughout human history. Cultural materials are presented in integrated ethnographic case studies organized by cultural and geographic areas to show how ideological, social organization and material features fit together in specific sociocultural systems. John H. Bodley explicitly seeks a balance between ecological materialist and cultural ideological explanations of sociocultural systems while stressing the importance of individual power seeking and human agency. Part one examines domestic scale autonomous tribal cultures; part two presents politically organized class based civilizations and ancient empires in the imperial world; part three surveys global industrial market based civilizations in the contemporary commercial world. Cultural anthropology uniquely challenges students to consider the big questions about the nature of cultural systems.

Each volume in the Insights series discusses discoveries and insights gained into biblical texts from a particular approach or perspective in current scholarship accessible and appealing to today's students. Each insight volume discusses how this method, approach or strategy was first developed and how its application has changed over time. What current questions arise from its use? What enduring insights it has produced and what questions remain for future scholarship? In this volume, Karl Allen Kuhn provides a description of what cultural anthropology is and how the discipline has impacted biblical studies looking at scripture through the lens of cultural anthropology. Is related to social scientific criticism, which refers to that phase of the exegetical task that analyzes the social and cultural dimensions of the text and its environmental context through the utilization of the perspectives, theories, models and research of the social sciences. Kuhn discusses general matters garnered from cultural anthropology interpretation that would be relevant for the study of biblical texts. He analyzes several biblical specific texts from a cultural anthropology perspective and provides conclusions, challenges and considerations for the future of cultural anthropology and biblical interpretation.

The *Handbook of Methods in Cultural Anthropology*, now in its second edition, maintains a strong benchmark for understanding the scope of contemporary anthropological field methods. Avoiding divisive debates over science and humanism, the contributors draw upon both traditions to explore fieldwork in practice. The second edition also reflects major developments of the past decade, including the rising prominence of mixed methods, the emergence of new technologies and evolving views on ethnographic writing. Spanning the chain of research from designing a project through methods of data collection and interpretive analysis, the handbook features new chapters on ethnography of online communities, social survey research and network and geospatial analysis, considered
