an edited collection examining the construction of popular culture in the late eighteenth and early nineteenth centuries

the 19th century in western culture was a time of both confidence and turbulence industrial development produced a growing middle class as well as efficiency convenience and innovation across a range of fields from engineering to architecture alongside these improvements the century began with the extended period of the napoleonic wars and was further disrupted by rebellions and revolutions both within europe and in india south america and other parts of the world slavery was abolished and urbanization increased dramatically these myriad developments were reflected throughout the period in the proliferation of types of furniture along with their categorization as industrial art at the international exhibitions and world fairs and the increasingly adventurous range of materials that were sometimes used in their construction nonetheless a strong antiquarian historicist strand also prompted interest in the revival of past styles in areas of

art and design including furniture drawing upon a wealth of visual and textual sources this volume of a cultural history of furniture presents essays that examine key characteristics of the furniture of the period on the themes of design and motifs makers making and materials types and uses the domestic setting the public setting exhibition and display furniture and architecture visual representations and verbal representations
