the establishment of good governance is a major challenge for the developing world along with the need to sustain the progress resulting from developmental efforts although there are numerous studies on the development and governance of emerging nations few volumes make a serious effort to bring together these two critical concepts international development governance combines the two concepts development and governance by examining the issues and problems faced by nations in their attempts to establish sustainable governance this textbook also initiates discussions on the concept of development governance in an international context the book fills the gap in existing literature by drawing upon the experience and expertise of scholars from a broad spectrum of knowledge their views explain the issues and problems with reference to a number of tools that could establish development governance and sustain it the text offers in depth examinations of developmental sectors resulting in a textbook that will inspire future public officials policy makers and consultants to contribute to the betterment of life for citizens of developing countries

the project has become fundamental to international development and humanitarian practice playing a key role in defining objectives funding streams and ultimately determining what success looks like this book provides a much needed overview of the project in international development practice guiding the reader through the latest theoretical debates and exploring the core tools and stages of planning and design the book starts with an overview of the role of the project through development history before taking the reader through the stages of a standard

project management cycle each chapter introduces the stage the most common tools used to support that phase of planning and the critical debates that exist around it with examples to illustrate discussions from around the world and a range of development fields the book explores the challenges to working effectively in contemporary aid contexts including the role of politics and the pressures wrought by the demands to demonstrate quantified results throughout the book argues for the need to see the project as a form of governmentality that arranges resources and people in time and space and that extends neoliberal forms of managerial control in the sector ending with suggestions for innovation this book is perfect for anyone looking for an accessible and engaging guide to the international development project whether student researcher or practitioner

thinking on development informs and inspires the actions of people organizations and states in their continuous effort to invent a better world this volume examines the ideas behind development their origins how they have changed and spread over time and how they may evolve over the coming decades it also examines how the real life experiences of different countries and organizations have been inspired by and contributed to thinking on development the extent to which development works depends in part on particular local historical or institutional contexts general policy prescriptions fail when the necessary conditions that make them work are either absent ignored or poorly understood there is a need to grasp how people understand their own development experience if the countries of the world are varied in every way from their initial conditions to the degree of their openness to outside money and influence and success is not centred in any one group it stands to reason that there cannot be a single recipe for development each chapter provides an analytical survey of thinking about development that highlights debates and takes into account critical perspectives it includes contributions from scholars and practitioners from the global north and the global south spanning at least two generations and multiple disciplines it will be a key reference on the concepts and theories of development their origins evolution and trajectories and act as a resource for scholars graduate students and practitioners

international development is now a major global activity and the focus of the rapidly growing academic discipline of development studies the encyclopedia of international development provides definitions and discussions of the key concepts controversies and actors associated with international development for a readership of development workers teachers and students with 600 entries ranging in length from shorter factual studies to more in depth essays a comprehensive system of cross references and a full index it is the most definitive guide to international development yet published development is more than a simple increase in a country s wealth and living conditions it also implies increasing people s choices and freedoms it is change that is inclusive and empowering development theory and practice has important applications to questions of economic growth trade governance education healthcare gender rights and environmental protection and it involves issues such as international aid peacekeeping famine relief and strategies against hiv aids the encyclopedia treats these topics and many more and provides critical analyses of important actors within development such as the united nations and world bank non governmental organizations and corporations contributors to this volume reflect the multidisciplinary and international nature of the subject they come from social science disciplines such as economics international studies political science and anthropology and from specialities such as medicine this encyclopedia provides crucial information for universities students and professional organizations involved with international development and those interested in related topics such as international studies or other studies of social and economic change today

a sure footed and self confident book ambitious in scope authoritative in execution and practical in its implications simon maxwell director overseas development institute london at last a development studies text that encourages self reflection from within the discipline highly recommended professor ray kiely chair in international politics queen mary university of london this is the book that academics development researchers and practitioners have been seeking for a long time it addresses the most important issues which development researchers and practitioners cope with each and every day dr tran tuan director research and training centre for community development hanoi vietnam an insightful book for both

development practitioners and researchers alike professor k n nair director centre for development studies kerala india this book is about working professionally in development studies as a student researcher or practitioner it introduces and addresses the fundamental questions that everyone engaged with development must ask what is development and why do we wish to study it how do the many theoretical methodological and epistemological approaches relate to research and practical studies in development how are development research and practice linked accessibly written with extensive use of case study material this book is an essential primer for students of development studies who require a concise penetrating overview of its foundations it is also core reading for students and practitioners concerned with the design of studies in the course of policy analysis sector reviews or project formulation management and evaluation

offering insights from pioneering new perspectives in addition to well established traditions of research this handbook considers the activities not only of advocacy groups in the environmental feminist human rights humanitarian and peace sectors but also the array of religious professional and business associations that make up the wider non governmental organization ngo community including perspectives from multiple world regions the book takes account of institutions in the global south alongside better known structures of the global north international contributors from a range of disciplines cover all the major aspects of research into ngos in international relations to present a comprehensive overview of the historical evolution of ngos the range of structural forms and international networks coverage of major theoretical perspectives illustrations of how ngos are influential in every prominent issue area of contemporary international relations evaluation of the significant regional variations among ngos and how regional contexts influence the nature and impact of ngos analysis of the ways ngos address authoritarianism terrorism and challenges to democracy and how ngos handle concerns surrounding their own legitimacy and accountability exploring contrasting theories regional dimensions and a wide range of contemporary challenges facing ngos this handbook will be essential reading for students scholars and practitioners alike

in the past two decades the international community has shown an increased proclivity to engage in programmes of post conflict reconstruction in the aftermath of wars during the same period increased globalisation has meant that multinational companies have grown greatly in size and influence and have begun to challenge existing notions of governance at a global level here peter davis explores the reconstruction processes that have taken place in azerbaijan bosnia and rwanda based on extensive field work as well as existing literature this book plots the recovery of these countries from conflict and examines in detail the role that international companies have played in that process the book also explores how companies impacts on reconstruction are governed both by the companies themselves and by the host government and international agencies managing the rebuilding process

overseas aid and international development are catch all terms that cover a multitude of activities and abuses this guide explains what development actually is and explores its political and economic roots it shows what can happen in the name of development and argues for a more organic social approach with those it seeks to serve as equal partners in the process maggie black has written books for the oxford university press unicef and oxfam she has worked as a consultant for unicef anti slavery international and wateraid among others and has written for the guardian the economist and bbc world service

international development has complex unintended effects on the realities of equity rights governance and conflict in poor countries yet the myriad moral questions and quandaries encountered at every turn by development policymakers and practitioners are seldom thought about or articulated in a rigorous fashion instead development specialists are trained to focus on the technocratic aspects of economic aid delivery and to disregard the moral issues raised by the adverse collateral consequences of aid programs for many people communities institutions and environments in the developing countries reclaiming value in international development is the first book to bridge the divide between ethics and development from the perspective of a seasoned development practitioner who is also a trained ethicist schwenke formally

enlarges the concept of development to include its moral dimension to denote beneficial change that alleviates human misery and environmental degradation in poor countries and reinforces universal ethical norms such as human dignity essential freedoms social justice peace civic virtue human flourishing the common good gender equality safety and security and participation and inclusion she applies this ethically expanded concept to nine key topics in international development education leadership procurement food security conflict urbanization gender identity and sexual orientation deliberative participation and the measurement of ethical performance throughout the book the author draws on her thirty years of experience as a development practitioner in thirty poor countries around the world to give vivid real life illustrations of the classic moral dilemmas in development ethics and to show how moral reasoning can clarify and resolve them

this comprehensive and broad ranging introductory textbook examines the key aspects of contemporary international development from both a practical and theoretical perspective it addresses the fundamental question of what development actually is and examines social economic and environmental developments around the world written by experts with extensive field experience this text introduces key issues in the development debate from how the developing world is changing global order to discussions on gender and development as well as security and development international development is a critical and interdisciplinary introduction to the contested field of development that is the ideal companion for both undergraduate and postgraduate students studying modules in development on degrees in international politics international relations and development studies this title will also appeal to policy makers working in areas of development and professionals working in the area

interpretivism has an intuitive appeal to many social researchers but they often feel ill equipped to do it other social researchers tend to believe that interpretivism is a specialized niche with little relevance to their research practice what has been lost is the awareness that interpretation is an explanatory logic and form of inquiry that is at the root of all social science research including quantitative research in this volume

the authors guide social researchers and instructors in better understanding and improving the experience of doing interpretive research they explore the centrality of experience in learning and teaching interpretive research paying special attention to the role of emotions in the learning process and the way that negative emotions such as doubt and anxiety can impart learning the authors provide a novel approach to methods teaching by offering a set of heuristics open ended strategies of inquiry and discovery for improving the practice of social research uniquely they demonstrate how emotions can be leveraged in the learning process to uncover surprising new insights about social reality and unlock researchers imagination they reveal how social researchers engaged or interested in interpretivism in learning can turn their research into an enjoyable productive and imaginative experience

introduction to international development cooperation

international development is a comprehensive inquiry into the field of socio economic development founded on an understanding that economic advancement involves transformation of society it explores successful developmental strategies but also tries to identify factors behind failed endeavours and the human costs associated with them the book evaluates the role played by influential agents of development such as the state and its institutions authoritarian leaders international organizations donor agencies non governmental organizations civil society activists and private business actors key features a multi disciplinary approach taking into account politics economics sociology cultural aspects and history of development examines a breadth of different theoretical approaches and their practical applications presents both mainstream and critical viewpoints addresses such complex issues as governability processes rights of the poor colonial legacy armed conflict environmental sustainability gender relations foreign aid urbanization rural development and international trade suggested further reading list at the end of each chapter this well balanced book will be a key text for students and practitioners working in the area of

socio economic development and more broadly in development studies the politics of development and international political economy

key resolutions from the first fifty years of the united nations general assembly

introduction to international development is a topical and theoretical introduction to development studies this book is unique in its multidisciplinary approach given that most textbooks in the area are anchored primarily in one specific discipline such as political science or economics and fail to incorporate theories and viewpoints from other disciplines drawing contributors from a variety of disciplines all three editors themselves come from different disciplinary backgrounds this text ensures that students are exposed to a well rounded view of development issues in addition to being interdisciplinary the book is international in scope contributors from north america the uk europe and the developing world expose students to diverse international perspectives the book is divided into three sections an overview of the history and key theories a presentation of the key actors and an exploration of contemporary issues in international development combining theoretical practical and multidisciplinary approaches to respond to the particular needs of undergraduate international development programs introduction to international development is truly the ideal text for any international development studies course

this handbook considers the myths and untruths that currently exist in international development and education using historic and contemporary evidence this compendium redefines the international development narrative through a new understanding of
