this book identifies philosophical and definitional gaps in evolutionary natural science and modern leadership studies it strongly argues that if we continue to use current fragmented leadership models and theories we are not likely to solve the challenge of leadership soon other topics include small and big issues contact yourself be the best in two everybody knows a good leader the bouazizi factor synchronicity be the judge and the legal sin

business and employee management are key subjects in business administration for decades actually for centuries there has been a discussion about how effective leadership of people or employees can be realized it has always been a major concern within market based economic systems to learn how its products and services should be designed in order to generate consumer demand that the discussion about business and employee management is more relevant than ever is linked to the fact that leadership situations are

influenced by a variety of external factors they include in particular political cultural social demographic economic and technological developments it is therefore required for business and employee management to be adapted to those external framework conditions on a permanent basis in former times the assumption in mainstream leadership research was that leadership success relied on specific personal characteristics later on the prevailing view was that the decisive factors in employee management lied in specific leadership behavior or leadership styles today s research on leadership is dominated by situation oriented approaches providing for specific leadership concepts for specific organizational and employee related structures the present thesis is an attempt to bundle a variety of approaches to leadership with the aim of providing an overarching framework for concepts of a similar nature therefore the leadership concept to be developed in what follows is to be characterized by the principles of holism and sustainability the first step is to present the fundamentals of leadership and management in order to introduce key terms and concepts and provide an overview of the research on leadership chapter 3 deals with separately displaying the business and employee management approaches of various management pioneers distinguishing between early and con temporary pioneers each approach is presented in consideration of its key elements its strengths and opportunities as well as its weaknesses and limitations the fourth chapter finally is devoted to developing a holistic and sustainable leader ship concept

this wide ranging interdisciplinary book provides readers with a complete introduction to the essentials of leadership included here are accessible and insightful entries on what leadership is how it is practiced and the relevant strengths and pitfalls the book provides a one stop introductory guide to one of the most central and contested concepts in the social sciences an invaluable reference tool it contains consistent concise and authoritative entries on the eight questions of leadership the five minds of the manager leadership and psychology developmental approaches to leadership functional leadership leadership practice

destructive leadership and management hypocrisy advances in theory and practice explores detailed insights into destructive leadership providing a deeper understanding of the implications of destructive leadership and valuable warnings and lessons to apply to your own career or organization

leadership literature is dominated by western paradigms but what about the lessons of leadership from a cross cultural perspective in this highly readable volume sy islam and gordon b schmidt utilise examples from avatar the last airbender to bring this unique lens of perspective to a range of leadership behaviour themes

this handbook explores the discourse within the field of educational leadership and management it provides a clear analysis of the current field as well as older foundational ideas and newer concepts which are beginning to permeate the discussion the field of educational leadership and management has long acknowledged that educational contexts include a variety of leaders beyond school principals and other school officials such as informal and middle level leaders by looking at the knowledge dynamic rather than a static knowledge base this handbook allows research to be presented in its multidimensional evolving reality
