a brief history of the philosophy of time is a concise and accessible survey of the history of philosophical and scientific developments in understanding time and our experience of time it discusses prominent ideas about the nature of time plus many subsidiary puzzles about time from the classical period through the present

the global ecological crisis is the greatest challenge humanity has ever had to confront and humanity is failing the triumph of the neo liberal agenda together with a debauched scientism has reduced nature

and people to nothing but raw materials instruments and consumers to be efficiently managed in a global market dominated by corporate managers media moguls and technocrats the arts and the humanities have been devalued genuine science has been crippled and the quest for autonomy and democracy undermined the resultant trajectory towards global ecological destruction appears inexorable and neither governments nor environmental movements have significantly altered this or indeed seem able to the philosophical foundations of ecological civilization is a wide ranging and scholarly analysis of this failure this book reframes the dynamics of the debate beyond the discourses of economics politics and techno science reviving natural philosophy to align science with the humanities it offers the categories required to reform our modes of existence and our institutions so that we augment rather than undermine the life of the ecosystems of which we are part from this philosophical foundation the author puts forth a manifesto for transforming our culture into one which could provide an effective global environmental movement and provide the foundations for a global ecological civilization

for all the deep thinkers with questions about the world this encyclopedia holds the answers you have been searching for what is the meaning of life what is the universe made of read what our eminent philosophers thought about the nature of reality and the fundamental questions we ask ourselves to help you understand the subject and what it is about the philosophy book introduces you to ancient philosophers such as plato and confucius but it doesn t stop there read about our modern thinkers such as chomsky and derrida too short and sweet biographies of over a hundred philosophers and their profound questions work your way through the different branches of philosophy such as metaphysics and ethics understand how philosophical questions have led to breakthroughs in maths and science get to grips with how the history of philosophy informs our modern lives exploring topics such as how science can predict the future and how language shapes our thoughts and decisions your philosophical questions explained if you thought philosophy was full of difficult concepts the philosophy book presents the key ideas in an easy to follow layout explained in simple terms with visual guides such as mind maps diagrams and timelines for the progression of ideas enjoy the stunning graphics that add a little wit to the serious subject travel from ancient philosophers to contemporary thinkers the ancient world 700 bge 250 ce the medieval world 250 1500 renaissance and the age of reason 1500 1750 the age of revolution 1750 1900 the modern world 1900 1950 contemporary philosophy the series simply explained with over 7 million copies sold worldwide to date the philosophy book is part of the award winning big ideas series from dk books it uses innovative graphics along with engaging writing to make complex subjects easier to understand

have you ever felt at a disadvantage when joining in a conversation on a subject that you aren t confident about if yes this new book series is for you each book features definitions of two hundred words frequently used to describe and discuss a smart subject 200 words to help you talk about philosophy is designed to demystify jargon based philosophic language and make you at ease holding a conversation on the topic philosophy can be baffling as well as fascinating to the best of us let anja steinbauer guide you through doubt dialectic dao and much more the book is written with digestible text enabling a quick and easy understanding of various topics while broadening your philosophical vocabulary 200 words to help you talk about philosophy is one of two new titles beginning a series of smart subjects also including art psychology and music

in his best selling book *you must change your life* peter sloterdijk argued exercise and practice were crucial to the human condition in the art of philosophy he extends this critique to academic science and scholarship casting the training processes of academic study as key to the production of sophisticated thought infused with humor and provocative insight the art of philosophy further integrates philosophy and human existence richly detailing the foundations of this relationship and its transformative role in making the postmodern self sloterdijk begins with plato s description of socrates whose internal monologues were so absorbing they often rooted the philosopher in place the original academy sloterdijk argues taught scholars to lose themselves in thought and today s universities continue this tradition by offering scope for plato s accommodations for absences by training scholars to practice thinking as an occupation transcending daily time and space universities create the environment in which thought makes wisdom possible traversing the history of asceticism the concept of suspended animation and the theory of the neutral observer sloterdijk traces the evolution of philosophical practice from ancient times to today showing how scholars can remain true to the tradition of the examined life even when the temporal dimension no longer corresponds to the eternal building on the work of husserl heidegger nietzsche arendt and other practitioners of the life of theory sloterdijk launches a posthumanist defense of philosophical inquiry and its everyday therapeutic value
