Inventing Inventors in Renaissance Europe
The Invention of the European *Markus Krah Mark Monmonier Abu Bakarr Bah Amalia Athanasiadou Beáta Bakó Ilaria Mariotti Catherine Atkinson*

the postwar decades were not the golden era in which american jews easily partook in the religious revival liberal consensus and suburban middle class comfort rather it was a period marked by restlessness and insecurity born of the shock about the holocaust and of the unprecedented opportunities in american society american jews responded to loss and opportunity by obsessively engaging with the east european past the proliferation of religious texts on traditional spirituality translations of yiddish literature historical essays photographs and documents of shtetl culture theatrical and musical events culminating in the broadway musical fiddler on the roof illustrate the grip of this past on post 1945 american jews this study shows how american jews reimagined their east european past to make it usable for their american present

by rewriting their east european history they created a repertoire of images stories and ideas that have shaped american jewry to this day

this book explores the us patent system which helped practical minded innovators establish intellectual property rights and fulfill the need for achievement that motivates inventors and scholars alike in this sense the patent system was a parallel literature a vetting institution similar to the conventional academic scientific technical journal insofar as the patent examiner was both editor and peer reviewer while the patent attorney was a co author or ghost writer in probing evolving notions of novelty non obviousness and cumulative innovation mark monmonier examines rural address guides folding schemes world map projections diverse improvements of the terrestrial globe mechanical route following machines that anticipated the gps navigator and the early electrical you are here mall map which opened the way for digital cartography and provided fodder for patent trolls who treat the patent largely as a license to litigate

the end of the cold war was to usher in an era of peace based on flourishing democracies and free market economies worldwide instead new wars including the war on terrorism have threatened international regional and individual security and sparked a major refugee crisis this volume of essays on international humanitarian interventions focuses on what interests are promoted through these interventions and how efforts to build liberal democracies are carried out in failing states focusing on africa the middle east and europe an international group of contributors shows that best practices of protection and international state building have not been applied uniformly together the essays provide a theoretical and empirical critique of global liberal governance and as they note challenges to regional and international cooperation they reveal that global liberal governance may threaten fragile governments and endanger human security at all levels

reverse payment settlements or pay for delay agreements between originators and generic drug manufacturers create heated debates regarding the balance between competition and intellectual property law these settlements touch upon sensitive issues such as timely generic entry and access to affordable pharmaceuticals and also the need to preserve

innovation incentives for originators and to strengthen the pipeline of life saving pharmaceuticals this book is one of the first to critically and comparatively analyse how such patent settlements and various other strategies employed by the pharmaceutical industry are scrutinised by both united states us and european courts and enforcement authorities and to discuss the applicable legal tests and the main criteria used for their assessment the book s ultimate objective is to provide guidance to the pharmaceutical industry regarding the types of patent settlements strategies and conduct which may be problematic from us antitrust and european union eu competition law perspectives and to assist practitioners in structuring settlements which are both efficient and compliant to this end an exhaustive legal analysis of some of the most controversial issues regarding pharmaceutical patent settlements is provided including the lengthy split among us circuit courts on the issue of pay for delay settlements its resolution by the us supreme court in *ftc v actavis* and subsequent jurisprudence the decision of *lundbeck v commission* by the european general court and the *servier* decision of the european commission the *roche novartis* decision of the european court of justice and the most important decisions by national competition authorities on pharma patent settlements in the eu an overview of other types of strategies such as product hopping and product reformulations no authorised generic commitments problematic side deals mechanisms affecting generic substitution the rejection of the scope of the patent test in both the us and the eu and the balancing of patent law and antitrust law considerations in the prevailing applicable tests the benefits of settlements and the main criteria for assessing their legitimacy under us antitrust and eu competition law the analysis provides concrete examples of both illegitimate and legitimate settlements and strategies emphasising on conduct that falls within a grey zone and on the circumstances and criteria under which such conduct could be deemed problematic from an antitrust perspective this book will serve as a valuable guide for pharmaceutical companies wishing to minimise the risk of engaging in conduct that could potentially infringe us antitrust and eu competition law it further aims to save courts and enforcement agencies and also practitioners and academics considerable time and resources by providing an exhaustive analysis of the relevant caselaw with the ultimate goal to increase legal certainty on the most controversial aspects of patent settlements in the pharmaceutical industry

the national conservative government of hungary has been heavily criticised for its violation of eu values primarily the rule of law in recent years this book looks to the bigger picture in examining the rule of law debate between hungary and the eu it explores how certain elements of various hungarian constitutional reforms are interrelated and how the eu has failed to address the situation properly it is argued here that the reason the eu has been unable to enforce its values effectively in hungary stems from the misunderstanding that hungary kept the institutional design of liberal democracy but made it dysfunctional the debate with the eu is characterised as a dialogue of the deaf as the eu insists on advancing the rule of law agenda while the hungarian government defends itself by alluding to its democratic legitimacy the author contends that the hungarian government is in fact playing a charade while the actions of the eu maintain this drama the book will be of interest to students academics and policymakers working in the areas of constitutional law and politics eu law and populism

this book explores the innovative workplaces namely coworking spaces and makerspaces that are emerging as a consequence of digital innovations and the related development of the knowledge economy and society in the wake of deindustrialization drawing on international and multidisciplinary research projects fresh insights are provided into current trends research methodologies actors location patterns and effects and urban and regional policies and planning the aim is to cast light on all aspects of these new working and making spaces highlighting their innovative geographies and the complexities of their nexus with urban and regional change processes from both the theoretical and the empirical point of view the book includes multiple illuminating case studies from the advanced economies of north america and europe carefully selected for their relevance to the topic under analysis this book is designed for an international audience comprising not only academicians but also policymakers representatives of civil and entrepreneurial associations and business operators
