exhaustively updated this second edition provides a current assessment of world population and the range of economic social and environmental issues it raises what do we now know about the future capacity of the earth to support humankind how do experts approach the wide range of economic demographic and environmental issues affected by population rates the

publication of the first edition of world population a reference handbook offered the first accessible introduction to this vital field of study now abc clio presents a thoroughly updated new edition incorporating a wealth of new research and data to explore population issues affecting countries all over the world readers will see how everything from plagues and famines to disease control and contraception to economic development and landmark judicial decisions have influenced population patterns the work also features two new chapters an updated timeline of key events relating to global population putting the issue into long term perspective and biographies of key individuals to put a human face on the study of population

from a biopsychosocial perspective physical and to a lesser extent mental health have been a priority for researchers policymakers and healthcare providers relative to social health the hegemony of physical health weakened during the covid pandemic as mental and social health also emerged as equally important and at risk at the same time not since the 1960s has society attended to the social vulnerabilities of older adults particularly in institutional settings for the first time the urgency of providing care for older adults has transcended physical settings as frontline workers in hospitals prisons schools and other community based settings as well as families in their own homes also emerged as vulnerable the institutional care workforce faces an ongoing crisis at the same time some countries have restricted migration posing a threat to in home and community based long term care covid has forced healthcare policymakers to prioritize both acute and long term health issues simultaneously as society tries to regain full functionality covid and future natural and unnatural disasters associated with climate change threats to democracy discrimination against societal groups based on age gender race ethnicity religion and income status promise to challenge us all to acknowledge and act such that our well being is everybody's well being across the life course we are all aging and how different age groups fare affects how other age groups fare

this innovative atlas deconstructs the contemporary image of the north south divide between developed and underdeveloped countries which was established by the 1980 brandt line and advocates the need for the international community to redraw the global map to be fit for the 21st century throughout the book a range of colorful maps and charts graphically demonstrate the ways in which the world has changed over the last 2 000 years the atlas first analyzes the genesis and characteristics of the brandt line's north south divide before going on to discuss its validity through the centuries especially before and after 1980 and demonstrating the many definitions and philosophies of development that exist or may exist which

make it difficult to define a single notion of a global north and south the book concludes by proposing new schemes of categorization between developed and developing countries which might better fit our contemporary global society this book will serve as a perfect textbook for students studying global divisions within geography politics economics international relations and development departments as well as being a useful guide for researchers and for those working in ngos and government institutions

the coronavirus disease 2019 covid 19 outbreak has spread throughout the globe and much time has passed since it was declared as a pandemic by the world health organization who covid 19 diagnosis and management provides clinicians and scholars all the information on this disease in 2 volumes readers will find a concise and visual reference for this viral disease and will be equipped with the knowledge to assess and manage sar cov 2 infection cases in clinical settings this book is divided into two parts i and ii part i provides comprehensive information about 1 history of coronaviruses 2 epidemiology of covid 19 3 clinical presentation of this viral disease and 4 covid 19 diagnosis part ii covers broader topics about this communicable disease including 1 the prevention and treatment methodology 2 mortality and long term complications 3 covid 19 vaccines and future perspectives key features covers all the aspects of covid 19 making this a perfect textbook for virology and medical students chapter wise description and segregation of topics from pathophysiology to diagnosis and management of covid 19 six chapters in the first part which focus on clinical basics of covid 19 six chapters in the first part which cover broader topics for practical infection control multiple tables and figures which summarize and highlight important points presents a summary of the current standards for the evaluation and diagnosis of covid 19 features a detailed list of references abbreviations and symbols this book is an essential textbook reference for medical students scientists virologists pulmonologists and public health officials who are required to understand covid 19 diagnosis and management as part of their clinical training or professional work

abstract this most comprehensive review of the world s food supply status since the rome 1974 world food conference records and analyzes major world food activities and programs over the past 10 years surveys food situations currently faced world wide and regionally and provides a prognosis for feeding the world s populations global food grain inventories and food production are more comfortable relative to food demand than predicted 10 years ago however agricultural prices and

production levels are too variable to accurately and quantitatively project the world food situation over the coming 10 year period the report examines what has happened during the past decade in areas of agricultural development production trade and aid and focuses on changes that have taken place in the major geographical regions of the third world public policy proposals made at the 1974 conference are reviewed and the evolution of both institutions and policies for agricultural development and food aid promotion is examined and discussed the evolution of analytical thinking on the dynamics of agricultural change over the past decade is reviewed in detail wz
