this book is the result of a meeting held in I Aquila Italy from the 19th to the 23rd of June 1989 the aim of the meeting was to gather together the people actively working on the cosmic microwave background radiation both from an experimental and from a theoretical point of view in view of the intensive current activity in this field including ongoing COBE and forthcoming RELIC II ISO AELITA etc space missions a meeting fully dedicated to this important topic was timely the meeting also celebrated the 25th anniversary of the microwave background discovery made in 1964 by the Nobel prize winners A. Penzias and R. Wilson we greatly regret that we were not able to have them at the meeting there is of course another person whose absence we regret namely R. H. Dicke who motivated a generation of experimentalists and theoreticians to open and study this new field of research as organizers of the meeting we would like to express our gratitude to the people who contributed to its success we want to thank the members of the scientific organizing committee for their assistance suggestions and encouragement the invited speakers for their excellent presentations and the chairmen for their help in handling the

various sessions we would like to thank p palazzi for her help in secretarial work dr l
