here s the most clinically oriented critical care text focusing on the adult patient in full color and superbly illustrated with clinical photographs imaging studies and management algorithms and with a broad multidisciplinary focus this text will help you enhance your skills at any level of training stands alone as a clinically oriented comprehensive reference completely updated and authorship expanded to reflect the evolution in critical care practice in color for the first time with new color schematics and treatment algorithms for greater ease of reference utilizes key points lists at the end of chapter to help you make decisions rapidly and easily delivers key references that list other useful resources for information learn from the best icu specialists worldwide with contributions from an increased number of international authorities effectively manage common complications in the icu with updated coverage of severe sepsis septic shock surgical infections neurogenic and anaphylactic shock severe heart failure acute coronary syndromes and acute respiratory distress syndrome access the complete contents online at expert consult along with an image bank and instructional videos

critical care mcqs is the perfect companion for anyone sitting exams in intensive care as a training resource or just wanting to improve their knowledge in this constantly developing area of medical practice written by critical care doctors with experience of uk and european examination formats this book leads the reader through 450 true false questions with referenced explanations covering core syllabus topics and key influential papers to date a detailed list of further resources and recommendations relevant to critical care revision is also provided to enable readers to further their knowledge and understanding it is hoped that this book will prove invaluable for preparation and success in upcoming intensive care exams for both candidates and trainers this book would be useful for not only candidates sitting the uk final fellowship of intensive care medicine fficm and european diploma of intensive care edic exams but also the indian diploma in critical care medicine idccm the diploma of the irish board of intensive care medicine dibicm the australia and new zealand fellowship of the college of intensive care medicine cicm american board and any other country related intensive care exams

the world federation of societies of intensive and critical care medicine wfsic cm has reached the age of maturity physicians nurses and many others associated with the field of intensive and critical care medicine will be coming from all corners of the world to florence italy in august 2009 to celebrate the 10th quadrennial congress every 4 years for the last 36 years congresses in the magnificent venues of london 1973 paris 1977 washington 1981 jerusalem 1985 kyoto 1989 madrid 1993 ottawa 1997 sydney 2001 and buenos aires 2005 have signified an ever developing process which has resulted in the four pillars of the field of intensive and critical care medicine namely partnership ethics professionalism and competence the first pillar is based on a stronger interdisciplinary collaboration and a mutual professional partnership in the field of intensive and critical care medicine in recent decades professional activity in medicine has been regulated by well defined universal principles such as the welfare of the patient autonomy social justice and the patient physician relationship the second pillar ethics has offered welcomed assistance to all these principles in establishing an ethics curriculum

surviving critical illness is not always the happy ending we imagine for patients many icu survivors suffer from a range of long lasting physical and psychological issues such as end stage renal disease congestive heart failure cognitive impairment neuromuscular weakness and depression or anxiety which affect their overall quality of life and ability to lead productive lives this lingering burden or legacy of critical illness is now recognized as a major public health issue with major efforts underway to understand how it can be prevented mitigated or treated the textbook of post icu medicine the legacy of critical care discusses the science of the recovery process and the innovative treatment regimens which are helping icu survivors regain function as they heal following trauma or disease describing the major clinical syndromes affecting icu survivors the book delineates established or postulated biological mechanisms of the post acute recovery process and discusses strategies for treatment and rehabilitation to promote recovery in the icu and in the long term the chapters are written by an interdisciplinary panel of leading clinicians and researchers working in the field the book serves as a unique reference for general practitioners internists and nurses caring for long term icu survivors as well as specialists in intensive care medicine neurology psychiatry and rehabilitation medicine

journey into the world of intensive care medicine and the lives of people who have forever been changed by it a very special book filled with stories of survival hope and loss adam kay morgan's wit and compassion are everywhere evident in this enlightening book and he makes a welcome contribution to our understanding of these extraordinary times sunday times there is no room for error in the icu full focus is required at all times it can be the difference between life and death through the remarkable stories of his patients dr matt morgan guides you through the body and its organs he explains how various critical conditions arise and all that goes into treating them from the science research and technology to the tireless efforts of the doctors and nurses this book gives you powerful insights about intensive care many of which may prevent you or those close to you from ending up there it will even teach you how to save a life movingly and compassionately matt writes about the cases and the people that have stayed with him both the recoveries and the losses this book shows the fragility of life but also the incredible resilience of the human body and spirit sometimes darkness can show you the light

from this superb fieldwork observing medical staff on their rounds interviewing staff patients and families and systematically reviewing hospital records zussman reveals the existence of deep conflicts of opinion on how to allocate treatment and resources he shows that these perspectives depart from the formal principles of medical ethics he argues that courts and hospital administrators with their new insistence on taking the rights of patients seriously have reshaped the way life and death decisions are made at the same time zussman examines doctors frequent resistance to the precepts of medical ethics doctors he shows often override patients wishes justifying their decisions in the name of the patients best interests while maintaining control over the decision making process

completely rewritten and updated for the fifth edition this spiral manual remains the leading quick reference guide to both medical and surgical intensive care the essential principles protocols and techniques from irwin and rippe's intensive care medicine sixth edition have been distilled into a portable practical manual that is ideal for rapid bedside consultation the user friendly outline format features numerous tables illustrations and annotated references highlights of this fifth edition include a comprehensive overdoses and poisonings section presented in tabular format new chapters on minimally invasive monitoring in the icu and completely revised cardiology and hematology sections

the objective structured clinical examination osce has become widely employed in intensive care medicine icm exams such as the uk final fellowship of intensive care medicine fficm the european diploma of intensive care edic exam or the australia and new zealand fellowship of the college of intensive care medicine cicm this book is not only an essential tool for the rehearsal of osces in preparation for these exams but also for american and indian exams and any other exams within the field of intensive care medicine the osce is a style of examination that requires the candidate to present specific information in a short space of time matched to a prescriptive mark scheme this book allows candidates preparing for an icm osce to format their knowledge for this type of examination whilst practising and rehearsing against time the 60 osce stations provide a broad array of topics from past exams ranging across the training icm curriculums the mark schemes are presented in a short punctuated form allowing the candidate access to important points ideal at the sharp end of an exam campaign the 5 sets of osce exams are designed to run as a set of 12 each set will have an array of clinical scenarios requiring swift assessment diagnosis recommendations for investigations and management whilst also exploring aspects of pathophysiology there are a number

of data interpretation tools that are incorporated into clinical scenarios as well as standalone stations for electrocardiogram and radiology analysis this book is an important preparatory tool crucial to the armamentarium of any candidate preparing for an icm exam

this book part of the european society of intensive care medicine esicm textbook series is a graphical dense and concise text describing fundamental theoretical concepts needed for doctors and other professionals new to the field of intensive care medicine the book serves two main purposes as study material for any junior doctor nurse or other allied healthcare professional who is time pressured and wants to quickly learn the essentials and as a course volume of new esicm educational initiative called intensive care fundamentals the overarching goal of this initiative is to offer standardised high quality introductory education to all starters in intensive care there are two key elements of this initiative the book which is the prerequisite reading for attending the two day face to face course and the materials registration of candidate and training and certifying the trainers that will be provided by esicm
