public opinion in recent years has soured on multiculturalism due in large part to fears of radical islam in multiculturalism without culture anne phillips contends that critics misrepresent culture as the explanation of everything individuals from minority and non western groups do she puts forward a defense of multiculturalism that dispenses with notions of culture instead placing individuals themselves at its core multiculturalism has been blamed for encouraging the oppression of women forced marriages female genital cutting school girls wearing the hijab many critics opportunistically deploy gender equality to justify the retreat from multiculturalism hijacking the equality agenda to perpetuate cultural stereotypes phillips informs her argument with the feminist insistence on recognizing women as agents and defends her position using an unusually broad range of literature including political theory philosophy feminist theory law and anthropology she argues

that critics and proponents alike exaggerate the unity distinctness and intractability of cultures thereby encouraging a perception of men and women as dupes constrained by cultural dictates opponents of multiculturalism may think the argument against accommodating cultural difference is over and won but they are wrong phillips believes multiculturalism still has an important role to play in achieving greater social equality in this book she offers a new way of addressing dilemmas of justice and equality in multiethnic multicultural societies intervening at this critical moment when so many western countries are poised to abandon multiculturalism

reluctant to broaden the scope of tolerance while others insist that the notion of tolerance is itself potentially confining and demeaning and that modern nations should aspire to celebrate cultural differences coming to terms with ethnic diversity and cultural differences has become a major public policy concern in contemporary liberal democracies as they struggle to adjust to burgeoning immigrant populations engaging cultural differences provides a compelling examination of the challenges of multiculturalism and reveals a deep understanding of the challenges democracies face as they seek to accommodate their citizens diverse beliefs and practices
