from reviews there are good sections on writing academically at master s level how to get published and the benefits for postgraduates and the profession of sharing work the authors conclude with a useful chapter on applying postgraduate skills in the workplace this excellent guide will also be an invaluable resource in areas of study other than the intended health and social care field nursing standard nov 13 19 2013 this revised and updated

edition of study skills for master s level students adopts a reflective approach using exercises that are related to the development of the skills required to make the transition from undergraduate to postgraduate thinking and writing questions and activities encourage students to identify the skills that the postgraduate student should possess and to demonstrate an understanding of how those skills are developed topics covered include critical thinking developing independent study skills finding and using literature applying postgraduate skills in the workplace writing at master s level how to get published the book is easy to use and jargon free with clearly defined learning goals reflection points are included in order to support independent learning and enquiry and there are also suggestions for additional reading throughout the book study skills for master s level students can therefore be used as an independent student study tool or by lecturers in workshop settings here s what lecturers thought of the first edition a very comprehensive and accessible guide which is contemporary and related to application within the workplace easy to read and well presented very useful activities excellent i thought the complete book is a must for all postgraduate students this book is excellent and i wish i had had a chance to read it pre my msc course

vocational education and training vet can be difficult to define since it is set in a turbulent and volatile environment marked by national and regional specificities it can be delivered at different levels and by a variety of providers including community colleges colleges of further education polytechnics and universities as well as importantly private providers this collection reflects the shifting and often messy conceptualisations of vet on one level vet can be associated with the education and training of craft skilled workers or of those who are being prepared for a particular occupational destiny and specific position in the labour market in this instance notions of skill knowledge and dispositions are significant on another level it can raise questions over power and class formation in addition to the way in which these are mediated or intersect with race and gender moreover there are important political questions addressing the significance of vet in furthering social cohesion and economic regeneration in times of austerity when neoliberalism is hegemonic the chapters in this book are not all of a piece but each in its turn raises important questions about vet its relationship to the economy as well as its global setting this book was originally published as a special issue of globalisation societies and education

rather than organizing topics around the traditional regulatory fields air and water pollution hazardous wastes radiation etc this book is structured around the choices we make as individuals and societies that result in environmental health hazards the author details the hazards of energy production industry food production and the modern lifestyle while exploring our place within the local and global community
