Experiencing the Lifespan draws from a variety of cultures around the world to tell the story of human development communicating the science and human impact of developmental psychology in a highly conversational style

whilst qualitative approaches are beginning to be more commonly used and accepted in tourism discussions of research methods have rarely moved beyond practical considerations limited attention given to the underlying philosophical and theoretical underpinnings that influence the research process this book links the theory with research practice to offer a more holistic account of how qualitative research can be used in tourism

this book sets forth a new model of development from a causal perspective as this is an area vital to several disciplines it has been written at multiple levels and for multiple audiences it is based on the work of piaget and neo piagetians but also covers other major models in development it has elements that make it attractive as a teaching text but it is especially research focused it has clinical applications it presents many new ideas and models consistent with the existing literature which is reviewed extensively students researchers and practitioners should find it useful the models presented in the present work build on models introduced in prior publications e g young 1990a 1990b 1997

this is an open access title available under the terms of a cc by nc nd 4 0 licence it is free to read at oxford scholarship online and offered as a free pdf download from oup and selected open access locations developments in attachment research explores the contributions of several research groups in developmental science that have shaped the study of attachment and caregiving in recent decades each with a different image of the history of attachment research of the nature of attachment and why and how attachment research might be valuable in tracing changes in attachment theory over time the book examines the development of scientific evidence and breakthroughs the book also examines attachment research within developmental psychology as a culture considering its leadership kinship structures symbols conflicts points of entry or exit and the pressures and opportunities to which it has responded or failed to respond

v1 children and parenting v2 biology and ecology of parenting v3 status and social conditions of parenting v4 applied and practical parenting
