this book addresses harassment head on by conducting a thorough linguistic analysis of this pervasive social phenomenon and investigates the strategic language used by harassers to convey their ill intentions and inflict harm upon their victims the linguistic analysis focuses on how harassment is conducted through verbal and physical interactions between the perpetrator or group of perpetrators and the victim at a discourse level the author revisits several court cases held in the united states and europe to show the phenomenal difficulties victims face to support their claims with evidence the language of harassment applies pragmatic linguistic theories to shed light on the defining elements of harassment which include repetitive acts of hostile and unethical communication ill intentions power imbalances and harm inflicted upon the victim in addition the author illustrates the linguistic analysis through real life cases of workplace mobbing school bullying sexual and psychological harassment stalking and sexting

over the years pragmatics the study of the use and meaning of utterances to their situations has become a more and more important branch of linguistics as the inadequacies of a purely formalist abstract approach to the study of language have become more evident this book presents a rhetorical model of pragmatics that is a model which studies linguistic communication in terms of communicative goals and principles of good communicative behaviour in this respect geoffrey leech argues for a rapprochement between linguistics and the traditional discipline of rhetoric he does not reject the chomskvan revolution of linguistics but rather maintains that the language system in the abstract i e the grammar broadly in chomsky s sense must be studied in relation to a fully developed theory of language use there is therefore a division of labour between grammar and rhetoric or in the study of meaning between semantics and pragmatics the book s main focus is thus on the development of a model of pragmatics within an overall functional model of language in this it builds on the speech avct theory of austin and searle and the theory of conversational implicature of grice but at the same time enlarges pragmatics to include politeness irony phatic communion and other social principles of linguistic behaviour

shows how speech practices can be understood from a culture internal perspective in terms of values norms and beliefs of the speech communities concerned focusing on examples from many different cultural locations this book asks what is distinctive about these particular ways of speaking
