until recently the only option for instrument rating training in europe was a full course requiring up to 200 hours of theoretical knowledge instruction but the enroute and competency based instrument ratings for aeroplanes only are a part of a new approach that is supposed to make instrument flying more accessible because the original courses were designed as part of a commercial course and were necessarily intense this book is for people who already hold an icao ir and who can simply convert to the easa version by completing the skill test and demonstrating to the examiner during the skill test an adequate knowledge of air law meteorology and flight planning it contains all the information needed to answer the examiner s questions plus tip and tricks not usually taught on such a basic course

includes a mid december issue called buyer guide edition

this textbook is an introduction to the principles and practice of database systems development and management its aim is to provide a coherent presentation of database concepts within the broad framework of information systems engineering book jacket
