On the eve of the 33rd anniversary of its publication, the spiritual event of the twentieth century remains an exceptional work. On the one hand, the author offers a pioneering first-hand testimony of Rudolf Steiner's prophetic statements regarding the New Christ Revelation. On the other, he presents his own findings based on imaginative consciousness of the spiritual event of the twentieth century. Ben Aharon gives a unique account of events that took place in the spiritual world during the fateful twelve-year period from 1933 to 1945, encompassing the rise to power of National Socialism and culminating in the end of the Second World War. Through coming to a fully conscious understanding of this spiritual event, we can gain the courage needed to renew and enliven the spiritual science of Anthroposophy as the universal human language of our age. In addition to his description of the century's event, the author discusses the new soul faculties, the relation between supersensible and physical events, the rebirth of Anthroposophy since the end of the twentieth century, and Anthroposophy as the living language of the present. His words have a particular significance for the grouping of souls which the spiritual scientist Rudolf Steiner referred to as the Michael School. This third edition features a thoroughly revised and extended preface, introduction, and auxiliary chapters updated out of the signs of the present time.

This little book relates some experiences I had during the spiritual research which was eventually published in my book *Cognitive Yoga*. Usually, I am concerned with communicating the objective results of my research and not what I experienced whilst doing it, but an objective description of what the individual soul undergoes.

during spiritual research can be valuable to the study of anthroposophy and to those who pursue the spiritual path themselves through faithful inner work says the author the path of spiritual science can become a living spiritual being an intimate friend in the realms of soul and spirit this being can blossom into an extended spiritual community or school one can converse and co create with this spiritual school including the being of one s teacher by learning its inner language in 2012 yeshayahu ben aharon was confronted with a major obstacle in his research work after struggling alone he felt he could not progress without consulting his colleagues in the spiritual world the intimate soul experiences described in this book took place during such a gathering a special festive occasion with an active and engaged community of spiritual beings i want to share some aspects of what i experienced during this event in the more personal and imaginative language of storytelling it is a kind of new individual christmas nativity tale about the earthly ripening of a research problem its heavenly conception embryonic life and finally the birth on earth of what becomes a physical book printed black on white

are you ready to begin the process of making yourself a new etheric body and individuality in the last century rudolf steiner issued a challenge for practitioners of western spiritual science would it be possible to develop a new form of cognitive or michaelic yoga in contrast to the eastern yogis of old who practiced the spiritualization of inhalation and exhalation such contemporary yogic practice would involve a spiritualization of thinking as well as a transformation of perceptions and sensations in cognitive yoga dr ben aharon responds to that call developing the entire modern yogic process and describing it in remarkable detail through the methods presented committed practitioners of anthroposophy can create a living framework for spiritual research through a fully spiritualized thinking accompanied by a complete renewal of the experiences of perception and sensation as well as of the human body itself included in the contents of this extraordinary book is a comprehensive guide to the spiritualization of the senses

it is commonly accepted that the mission of christ was an act that was independent of any corresponding and requisite deed on the part of humanity though in part this is true this book asserts that the future spiritual evolution of humanity was dependent on human comprehension and understanding of the event of golgotha comprehension and understanding are defined in this work as one s capacity to spiritually follow christ through his entire passion death and resurrection the apostles were chosen for this very task but eventually failed at the critical hour golgotha esoteric christianity young man in tomb birth of jesus evolution of christ richard distasi

this unique work the fruit of many decades research and experience throws new light on the supersensible history and karma of the michaelic movement since rudolf steiner s death it describes that movement s evolution and transformation in the etheric world during the twentieth century from the world changing apocalypse of the 1930s and 40s through to the beginning of its incarnation on earth at the end of last century the book also focuses on developments in the practical and social work of building the community of the school of spiritual science which embodies the new michaelic movement in our time as ben aharon indicates the michaelic movement is searching for creative courageous and enthusiastic souls to foster a strong community that develops from one decade to the next as a living organism

for nearly a century the worldwide anthroposophical movement has been a catalyst for environmental activism helping to bring to life many modern ecological practices such as organic farming community supported agriculture and green banking yet the spiritual practice of anthroposophy remains unknown to most environmentalists a historical and ethnographic study of the environmental movement eco alchemy uncovers for the first time the profound influences of anthroposophy and its founder rudolf steiner whose holistic worldview rooted in esoteric spirituality inspired the movement dan mckanan shows that environmentalism is itself a complex ecosystem and that it would not be as diverse or transformative without the contributions of anthroposophy

how can our souls unite with the etheric christ experienced in the etheric world since the end of the last century what steps should we take in the second century of the age of michael to unite with him at the centre of humanity's evolution stands the mystery of golgotha through which the christ impulse entered the earth anthroposophy said rudolf steiner was given at the beginning of the last century to prepare for the second major christ event the etheric second coming beginning in 1933 this event is the portal that leads to the mighty and transformative happenings

taking place in the etheric world right now enabling us to meet the etheric christ michael and anthroposophia at the heart of this book is an existential question early in his anthroposophical work ben aharon came to realize that without the light of spiritual science the meeting with the etheric christ remained simply a personal experience likewise without the new life forces streaming from the etheric christ anthroposophy was merely a body of knowledge frozen in time both needed each other but how was that mutually enlivening bridge to be built speaking candidly of his personal spiritual path and inner struggles of consciousness ben aharon tackles this fundamental dilemma as a prelude to the forthcoming second edition of his book the new experience of the supersensible contents include the ur phenomena of the modern christ experience paul s christ experience and the birth of christian platonism the michaelic yoga the platonic aristotelian essence exchange at the end of the twentieth century the meeting with the etheric christ the abyss and the event of the threshold the knowledge drama of the second coming the meeting with michael the meeting with anthroposophia
