hitherto there has been no book that attempted to sum up the breadth of umberto eco s work and its importance for the study of semiotics communication and cognition there have been anthologies and overviews of eco s work within eco studies sometimes works in semiotics have used aspects of eco s work yet thus far there has been no overview of the work of eco in the breadth of semiotics this volume is a contribution to both semiotics and eco studies the 40 scholars who participate in the volume come from a variety of

disciplines but have all chosen to work with a favorite quotation from eco that they find particularly illustrative of the issues that his work raises some of the scholars have worked exegetically placing the quotation within a tradition others have determined the epistemic value of the quotation and offered a critique while still others have seen the quotation as a starting point for conceptual developments within a field of application however each article within this volume points toward the relevance of eco for contemporary studies concerning semiotics communication and cognition
