intercultural arts therapies research issues and methodologies is the first overarching study on intercultural practice and research models in the arts therapies it provides a new departure from traditional arts therapies education and research in that it focuses on research studies only written by international experts in the field the book offers a selection of diverse research undertaken within four arts therapies modalities art dance drama and music drawing on methodologies such as ethnography phenomenology and case study research chapters focus on cultural identity the transposition of cultural practices to a different context and the implications of different languages for arts therapies and disability culture with reference to primary research it aims to help practitioners and students to develop further research by making the mechanics of the research process explicit and transparent intercultural arts therapies research will appeal to arts therapists psychological therapy practitioners postgraduate students and other health and social care professionals it will also be of interest to students artists teachers social workers and those working for international aid agencies

the bloomsbury handbook of popular music and social class is the first extensive analysis of the most important themes and concepts in this field encompassing contemporary research in ethnomusicology sociology cultural studies history and race studies the volume explores the intersections between music and

class and how the meanings of class are asserted and denied confused and clarified through music with chapters on key genres traditions and subcultures as well as fresh and engaging directions for future scholarship the volume considers how music has thought about and articulated social class it consists entirely of original contributions written by internationally renowned scholars and provides an essential reference point for scholars interested in the relationship between popular music and social class

tactile retro and idiosyncratic hand printed objects have an undeniable appeal especially in a digital age in recent years the nearly obsolete craft of letterpress has been resurrected by artists and designers who have rescued cast iron presses from basements and scrap yards adventures in letterpress features over 200 examples of the resulting work elegant cards edgy broadsheets and everything in between beautiful humorous and sometimes just plain weird the projects featured in the book perfectly illustrate the vibrant future of this once endangered medium

based on the history of knowledge the contributions to this volume elucidate various aspects of how in the early modern period artists education knowledge reading and libraries were related to the ways in which they presented themselves

printed artworks were often ephemeral but in the early modern period exchanges between print and other media were common setting off chain reactions of images and objects that endured paintings sculpture decorative arts musical or scientific instruments and armor exerted their own influence on prints while prints provided artists with paper veneers templates and sources of adaptable images this interdisciplinary collection unites scholars from different fields of art history who elucidate the agency of prints on more traditionally valued media and vice versa contributors explore how after translations across traditional geographic temporal and material boundaries original meanings may be lost reconfigured or subverted in surprising ways whether a netherlandish motif graces a cabinet in italy or the print itself colored or copied is integrated into the calligraphic scheme of a persian royal album these intertwined relationships yield unexpected yet surprisingly prevalent modes of perception andrea mantegna s 1470 1500 battle of the sea gods an engraving that emulates the properties of sculpted relief was in fact reborn as relief sculpture and fabrics based on print designs were reapplied to prints returning color and tactility to the very objects from which the derived together the essays in this volume witness a methodological shift in the study of print from examining the printed image as an index of an absent invention in another medium a painting sculpture or drawing to considering its role as a generative active agent driving modes of invention and perception far beyond the locus of its production
