the social security administration ssa administers two programs that provide disability benefits the social security disability insurance ssdi program and the supplemental security income ssi program ssdi provides disability benefits to people under the full retirement age who are no longer able to work because of a disabling medical condition ssi provides income assistance for disabled blind and aged people who have limited income and resources regardless of their prior participation in the labor force both programs share a common disability determination process administered by ssa and state agencies as well as a common definition of disability for adults the inability to engage in any substantial gainful

activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months disabled workers might receive either ssdi benefits or ssi payments or both depending on their recent work history and current income and assets disabled workers might also receive benefits from other public programs such as workers compensation which insures against work related illness or injuries occurring on the job but those other programs have their own definitions and eligibility criteria selected health conditions and likelihood of improvement with treatment identifies and defines the professionally accepted standard measurements of outcomes improvement for medical conditions this report also identifies specific long lasting medical conditions for adults in the categories of mental health disorders cancers and musculoskeletal disorders specifically these conditions are disabling for a length of time but typically don t result in permanently disabling limitations are responsive to treatment and after a specific length of time of treatment improve to the point at which the conditions are no longer disabling
